## WHAT KIND OF HOUSE I DREAM OF, ITS LOCATION?

Many people dream of their ideal home, constantly imagining it, making lots of plans, and so on. I dream of a house that is in St. Petersburg. I associate the word home with warmth and comfort, with a safe place where you can always relax from your daily routine and where you can do whatever you want, as it is your territory.

## WHAT SHOULD IT BE LIKE?

It should be like a one-story house where the family will live.

## WHAT SHOULD BE OUTSIDE THE HOUSE?

A garden with planted flowers or trees is necessary for a beautiful facade in the house. I really like when flowers are planted near the house, I think it gives freshness to your home, and also the flowers are always nice to look at. And I would also very much like to have a small veranda. I want the patio to be decorated with foliage or nightlights.

## WHAT SHOULD BE ON THE FIRST FLOOR?

One the first floor is a huge living room, so that guests who came to feel at home. In living room must be a fireplace, so in winter you can gather the whole family around him to drink a cup of a tea and talk heart-to-heart. The house should have a large kitchen so that we can prepare food in a comfortable environment. Most important for me is a large bedroom. The should also be a room for parents and guests. These rooms should be very comfortable and spacious.

# KITCHEN

## BEDROOM

## BEDROOM FOR PARENTS

# GUESTS BEDROOM

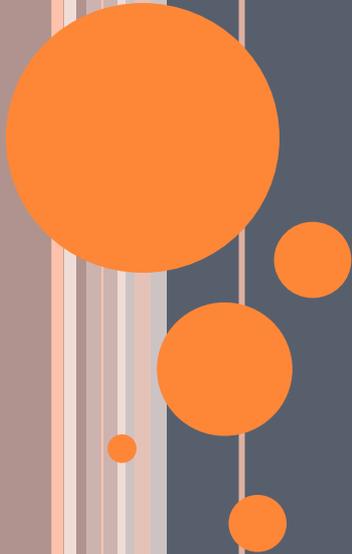

## WHO LIVES IN THIS HOUSE?

**My family always lives with me in the dream house and friends come to visit us rather often.**

## CONCLUSION:

The house should have modern appliances: there should be a big TV in the living room, there should be WI-FI. For security, an alarm system should be installed. The house should be comfortable to live in and beautiful. The place where you live should make you happy. To have the house you want is happiness! You can wish everyone to strive for this dream and be happy!!!

Thanks for attention!
