Unit 6

Do you like? Would you like?

Обрати внимание, что словосочетания **I like** и **I would like** имеют разный смысл. **I like** — мне нравится, я люблю; **I would like** — мне бы хотелось. Постарайся пользоваться ими правильно.

Если речь идёт о еде и напитках, по-английски говорят так:

...would like some bread/porridge/water (с неисчисляемыми существительными),

...would like some apples/plums (с исчисляемыми существительными во множественном числе),

...would like an apple/a plum (с исчисляемыми существительными в единственном числе).
