My book review

This is a historical work, which I read with pleasure. In the novel raised important topics: war and peace, betrayal and loyalty to the Homeland, friendship and betrayal, is also a love story. Before the reader reveals the identity of Pugachev. Against the background of the historical figure, we observe the life of the characters, worry about them, sympathize. The main idea of the novel is expressed in its epigraph. The main characters Peter Grinev adequately passes through all the vicissitudes of life, he Matures and grows morally. He carried out his father's order and remained honest man.

I hope you wanted to read this
