

# ALL ABOUT ASIA PORTFOLIO

Here is where your presentation begins

# Гражданское общество — это:

- Т
- <
- 1) сфера самопроявления свободных граждан и добровольно сформировавшихся ассоциаций и организаций, ограждённых соответствующими законами от прямого вмешательства и произвольной регламентации со стороны государственной власти;
- >
- 2) совокупность неполитических отношений, то есть общественных отношений вне рамок властно-государственных структур.

# Мыслители о сущности гражданского общества:

«Гражданское общество — это союз индивидуальностей, коллектив, в котором все его члены обретают высшие человеческие качества. Государство превалирует над гражданским обществом»

Т. Гоббс, английский философ

Гражданское общество — это общество политическое, т. е. общественная сфера, в которой государство имеет свои интересы.

Дж. Локк, английский философ

# Мыслители о сущности гражданского общества:

Гражданское общество — сфера реализации особенно частных целей и интересов отдельной личности. Подлинной свободы в гражданском обществе нет, так как в нём постоянно присутствует противоречие между частными интересами и властью, носящее всеобщий характер. Само гражданское общество не в состоянии справиться со своими проблемами. Приоритет принадлежит государству, которое способно интегрировать разрозненные интересы в цельное общество граждан.

Г. Гегель, немецкий философ

# Предпосылки возникновения гражданского общества

равенство граждан)

04

Культурные

(Высокий образовательный  
уровень населения)

# WHAT I DO

## MERCURY

Mercury is the closest planet to the Sun and the smallest one in the Solar System—it's only a bit larger than the Moon. The planet's name has nothing to do with the liquid metal since it was named after the Roman god, Mercury

## VENUS

Venus has a beautiful name and is the second planet from the Sun. It's terribly hot—even hotter than Mercury—and its atmosphere is extremely poisonous. It's the second-brightest natural object in the night sky after the Moon
