Europass Login and two-factor authentication

www.europass.eu

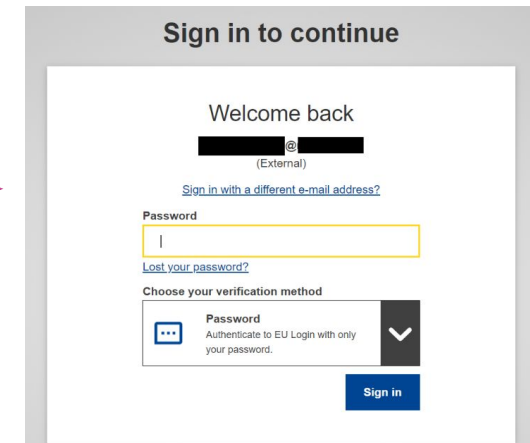

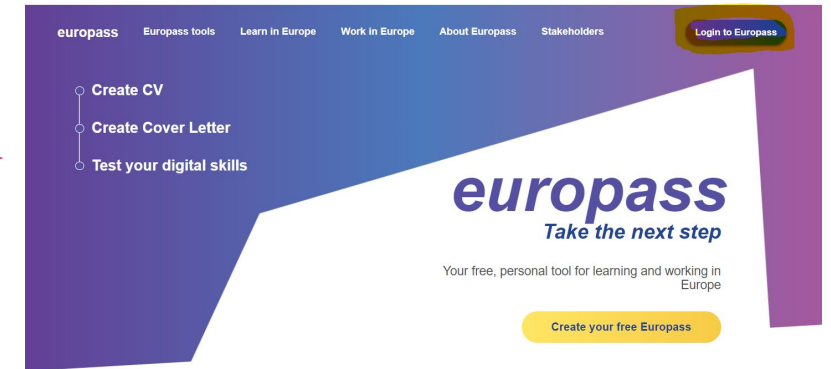

europass

Creating your EU Login account

Before starting, a brief explanation of what is the difference between **Europass** and **EU Login**:

- (1) **Europass** is your one place to manage your career and learning. Find out more about Europass via this [link](#).
- (2) **EU login*** is the European Commission's secure way of entering Europass and other EU Services. You can find out more about it [here](#).

www.europass.eu

***If you already have a Europass account and/or EU Login account, you can go directly to Step 2**

europass

What to do?

Step 1

Create your EU Login account

(If you already have a Europass account and/or EU Login account, you can go directly to Step 2)

Step 2

Add a two-factor authentication (2FA) method

Creating your EU Login account

Creating your EU Login account to access Europass

- You can access the **EU Login account** creation page from the Europass homepage (“Login to Europass”), or by clicking on “**Register**” while creating a Profile, CV or Cover Letter.
- When you reach the EU Login page, click on “**Create an account**”.
- You can also create an EU Login account directly, by connecting to: <https://webgate.ec.europa.eu/cas/>.

Creating your EU Login account

- You will receive an email in order to verify that you have access to that e-mail account (check your spam or junk folder if you don't see one within 10-15 minutes)
 - If you did not receive the email after 10 minutes please [contact the EU Login External Support](#)
 - Please note that it might take between 2 and 10 minutes to get the email.
- Follow the instructions in the email and click on the link you received.

Dear,

You have been registered in EU Login.

Your email address is@....

To create your password, follow the link below:

[this link](#)

You have a maximum of 24 hr, starting from the time that this message was sent, to create your password, but you are encouraged to do so immediately if possible. After this time, you can make another request by following the same link: you will then need to re-enter your username and confirm your request.

If the above link does not work, you can copy the following address (make sure the complete address is copied!) and paste it into your browser's address bar:
<https://ecas.cc.cec.eu.int:7002/cas/init/initialisePasswordLogin.cgi?xxx..>

Instead of replying to this message, if you have a problem, please follow the help or contact information on the site where you were trying to register.

Note that it may take up to 5 minutes after reception of this mail before the above-mentioned site will recognize your registration.

Passwords cannot include your username and must contain at least 8 characters chosen from at least three of the following four character groups (white space permitted):

- Upper Case: A to Z
- Lower Case: a to z
- Numeric: 0 to 9
- Special Characters: !"#%&'()*+,-./:;<=>?@[\\]^_`{|}~

Examples: SEN5RbaW GwOzMg9m U(nuCuwh

Creating your EU Login account

- You can then click on "Proceed" or "Login"
- If at the beginning of Step 1 you have registered from Europass (instead of using the direct EU Login link), you may read a message ""No mobile device found. To register a mobile device, go to My Account". This is normal, do not panic.
- You can close this page and proceed to Step 2.

Adding a two-factor authentication

Download the Login Mobile App on your phone

- The EU Login Mobile App can be installed via
 - Google Play Store (Android),
 - the App Store (iOS), or
 - the Windows Store (Windows Phone).
- To make the app work correctly you will need
 - a computer/laptop
 - your mobile device

europass

Adding a two-factor authentication

On both the devices

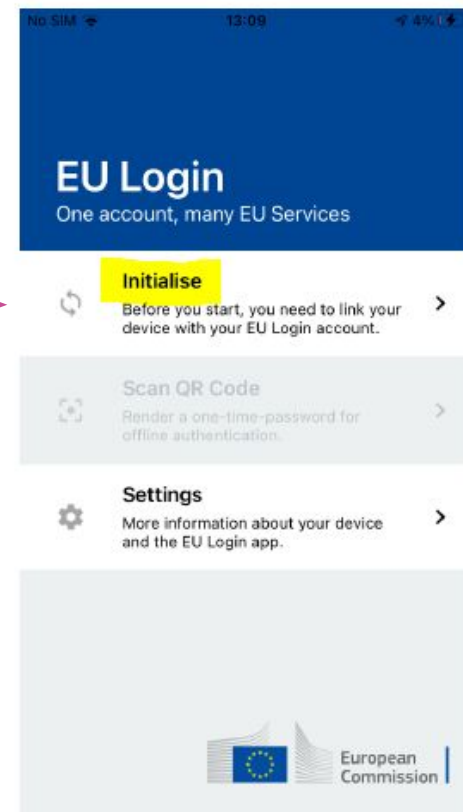

- After installing the EU Login Mobile App, open it and **tap on the "Initialise"** option.
- Follow the instructions on the screen*. In the browser of your PC **go to the following URL:** <https://webgate.ec.europa.eu/cas/mobile>.
- If needed, authenticate again with your username and password

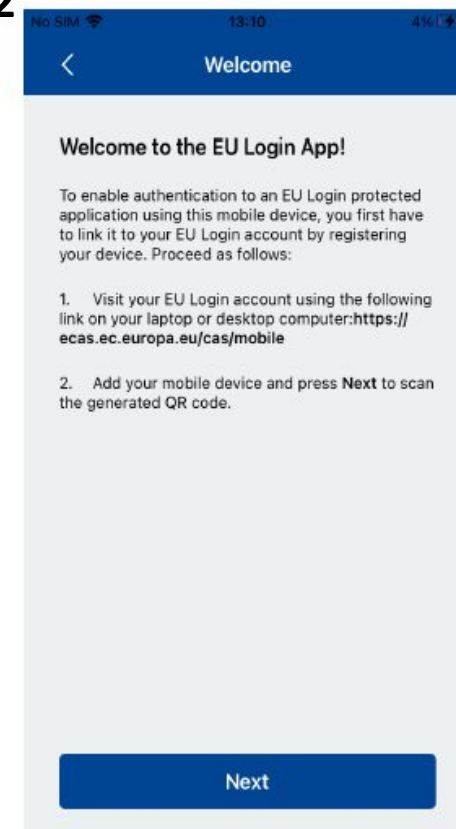

www.europass.eu

*If you already initialized the EU Login Mobile App on another device, you are requested to authenticate using the already registered device. Please note that an EU Login mobile app can only register a single account, and an account can only be registered with a single mobile app.

europass

Adding a two-factor authentication

On your laptop/desktop

- Click on «**Add mobile device**»
- In the "Your device name" field, **provide a name** that will allow you to remember to which device it refers to (for example, My Android phone).
- **Enter a PIN code** with 4 digits and enter it in the PIN code field (Choose a PIN code you can easily remember, but not easy to guess)
- Enter the same 4 digits in the confirmation field
- Once you are done, click «**Submit**».

Adding a two-factor authentication

On your EU Login Mobile App

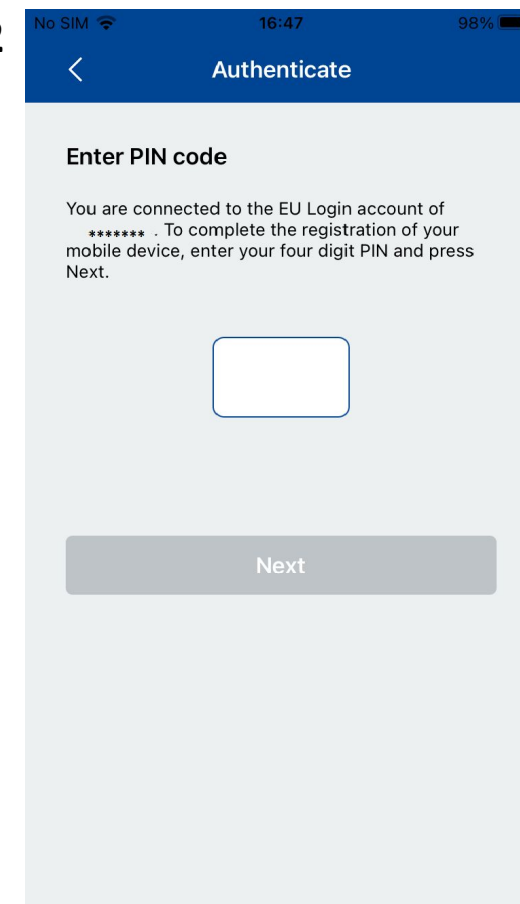

- Click on «**Next**» on your mobile device
- The QR code scanner starts on your mobile device and a QR code is displayed on the screen of your PC. **Point the camera** of your mobile phone to your PC screen until the QR code is recognised
- **Enter the PIN code** you have just chosen on your mobile device and tap "**Authenticate**".
- Your EU Login Mobile App is succesfully initialized!

Additional information

- You can find additional information on how to create your EU Login account and set-up two-factor authentication on the [EU Login User guide](#).
- Please refer to the guide above if instead of the mobile verification, you wish to set up a Security Key (SK) and/or Trusted Platforms (TP) authentication method.
- You can also have a look at this [tutorial video](#).

www.europass.eu

If you followed all the steps and did not manage to set up the two-factor authentication, please [contact](#) the EU Login External Support (EC working hours: 8 a.m.- 7 p.m. CET)

europass

Thank You
