

Add an extra layer of security

Compromised, reused or weak passwords remain a leading cause of security breaches. One of the best ways to protect your account is to have an extra form of verification in place.

ReadyPay Online supports several options for 2-step verification

- **Voice or text messages.**
During login RPO will send you one-time access code using SMS or read it out using a voice call.
- **Authenticator apps.**
Authenticator is an application that runs on your mobile device and generates one-time codes that are unique to you using a shared secret key. It works even if your phone is offline.

IMPORTANT: ReadyPay Online will remove email as an option for obtaining one-time access codes on April 01, 2023. It is important that you configure at least one alternative way of 2-step verification process before this deadline.

An Extra Layer of Security

Potentially compromised website passwords and account verification using email are leading causes of security breaches. One of the best ways to protect your account is to have an extra form of verification in place.

We provide several options for two-factor authentication using one-time access codes.

- **Text Message** – An access code is SMS messaged to your verified phone number.
- **Voice Message** – An access code is provided via a phone call to your verified phone number.
- **Authenticator App** – An Authenticator app on your mobile device generates an access code that is unique to you using a shared secret key and can work even if your phone is offline.

IMPORTANT: On April 1, 2023, we will remove email as an option for receiving one-time access codes. You must configure at least one alternative method of two-factor authentication prior to this date.

Additional Verification

Proliant and ReadyPay Online recognize that stolen, reused and weak passwords remain a leading cause of security breaches. Two-factor authentication adds an extra layer of security to your account by requiring you to enter a verification code at login. This additional step along with your password reduces the risk of your account being taken over.

Please enter your phone number

Note: We don't charge for text messages sent to your mobile device; however, standard message and data rates may apply.
