

Questel Orbit: патентная база

инструкция

Патентные базы данных компании Questel

- Крупнейший в мире патентный фонд, содержащий свыше 60 миллионов документов 95 стран и Международных Патентных ведомств;
- оригиналы патентных документов практически всех стран;
- рефераты на английском языке патентных документов наиболее патентуемых стран;

Патентные базы данных компании Questel

- полные тексты патентных документов США, Франции, Германии, Великобритании, Бельгии, Швейцарии, Австрии, Китая, Японии, Индии, России и др., а также заявки и патенты Международного и Европейского патентных ведомств;
- максимально полная информация о родственных патентах (patent family = патенты-аналоги), включая их юридический статус;
- возможность автоматического перевода найденных документов на любой из 30 языков мира, включая русский, английский, французский, немецкий и др.

Доступ к базе

Доступ к базе осуществляется по ссылке:

<https://www.orbit.com>

Далее нужно кликнуть по кнопке “Login”, и база автоматически откроется (с компьютеров университета)

Простой поиск

Простой поиск осуществляется через главное поисковое окно, размещенное на стартовой странице системы. Поиск можно производить по любым параметрам: по названию, номеру патента, по названию организации и и т. д.

Расширенный поиск

Для поиска более детальной информации воспользуйтесь функцией **Advanced search** - Расширенный поиск.

Параметры поиска

Для поиска по ключевым словам выберите параметр “Keywords” и отметьте поля, в которых будет производиться поиск:

Title – Название, **Abstract** – Аннотация, **Claims** – Заявка, **Description** – Описание,

Object of invention – Цель изобретения, **Advantages over prior art drawbacks** – Преимущества перед прототипом, **Independent claims** – Независимые пункты, **Concepts** – Понятия, **Full text** – Полный текст.

Параметры поиска

Можно выбрать классификацию: **Technology domain** – Предметная рубрика

Список предметных рубрик открывается после щелчка по квадратику, находящемуся справа от поля.

Также можно выбрать патентные классификации: IPC, CPC и др.

Параметры поиска

The screenshot shows a search interface with several sections. A red arrow points to the 'Names' section, which contains fields for 'Assignee (original, intermediate, current)', 'Inventor', and 'Representative'. Another red arrow points to the 'Legal status' section, which contains a 'Status' dropdown menu. The 'Assignee' field has a dropdown menu with 'Assignee (original, intermediate, current)' selected. The 'Inventor' and 'Representative' fields are empty. The 'Status' dropdown is set to 'No restriction (alive or dead)'. To the right of the 'Assignee' field, there are three checkboxes: 'Corporate Tree', 'E.g.: Fleming Alexar', and 'E.g.: Baker Botts'. The 'Numbers, dates & country' section is also visible below the 'Names' section.

Поиск по именам – **Names**.

В поисковых полях можно выбрать патентовладельца – **Assignee** (это может быть физическое или юридическое лицо) изобретателя – **Inventor**, представителя – **Representative**.

После щелчка по квадратику справа открываются соответствующие списки:

The screenshot shows the 'Assignee Assistant' window. It has a 'Keywords' section with a search bar containing 'lenovo' and a 'Search again' button. Below the search bar is a table of results. The table has two columns: 'Assignee' and 'Frequency'. The results are as follows:

Assignee	Frequency
LENOURICHEL HENRI	1
LENOVA	1
LENOVA WANGYU SCIENTIFIC & TECHNOLOGY BEIJ	1
LENOVICH	1
LENOVO	13607
LENOVO BEIJING	1
LENOVO BEIJING LENOVO BEIJING	1
LENOVO BEIJING	1
LENOVO BEIJING	1
LENOVO CHINA	50
LENOVO CHINAWEAL SYSTEM & SERVICE	5
LENOVO COMP SYSTEM TECHNOLOGY	2

At the bottom of the window, there are buttons for 'Add', 'Replace', and 'Cancel'. The window also has a 'Print Preview...' button in the top right corner.

Параметры поиска

The screenshot shows a search interface with a red arrow pointing to the 'Numbers, dates & country' section. This section contains three input fields: 'Publ. number' with a dropdown arrow, 'Date:' with a dropdown menu set to 'No Restriction', and 'Patents published in (patent authorities):' with an empty text box.

Поиск по номеру, дате или стране - **Numbers, dates & country:**

Publ. number – Номер публикации

Appl. number – Номер заявки

Priority number – Приоритетный номер

Date – Поиск по дате

Patents published in (patent authorities) – страна, где патент был зарегистрирован (сокращенно: RU, EP и т. д.)

Параметры поиска

▲ Legal status

Status: No restriction (alive or dead) ▼

Legal events: None ▼

Expiration date: No Restriction ▼

Поиск по правовому статусу патентов – **Legal status**

Status:

Alive – Действующий

Dead – Недействующий

Legal events – Правовые события

Expiration date – Срок действия

Информация о патенте

The screenshot displays the Orbit.com patent database interface. The main record is for patent '3 / 38178 - FamPat family'. The title is 'Keyboard instrument'. The abstract describes a keyboard instrument designed for beginners, featuring tone intervals arranged in a specific manner to reduce cost. The 'List of publications' table lists various patent entries with their publication numbers, dates, and application numbers. The 'Inventor' is YOSHIMINE TAKASHI, and the 'Assignee' is TAKASHI YOSHIMINE. The 'Representative' is Arends, William Gerrit; Marks & Clerk LLP [GB].

Annotations in Russian provide additional context:

- На верхней панели – переключение между частями патента** (On the top panel – switching between parts of the patent): Points to the navigation tabs at the top of the record, such as 'Biblio', 'Claims', 'Description', etc.
- Текст патента можно перевести на любой язык (щелкнуть по кнопке Translate и выбрать язык перевода)** (The patent text can be translated into any language (click the Translate button and select the translation language)): Points to the 'Translate' button located near the top of the abstract.
- Слева приведены патенты-аналоги (рядом стоит флаг государства, которому принадлежит)** (On the left, analogous patents are listed (next to the flag of the country to which it belongs)): Points to the list of patents on the left side of the interface, which includes flags indicating the country of origin for each patent.

Keyboard for musical instrument

Abstract
(EP1282111)
An extremely easy-to-play **keyboard** for musical instrument capable of forming any **keyboard** rows such as a semitone arrangement to a diatessaron arrangement and a chord arrangement with one **keyboard** substrate, wherein the **keyboard** substrate is formed so that the **keyboard** is formed by disposing, parallel with each other large number of key substrates (1) extending in the longitudinal direction of the **keyboard** with a difference of semitone, installing a plurality of key top mounting parts (5) on each key substrate (1) in the longitudinal direction, and installing the key tops (4) on any key top mounting parts, or by combining various types of **keyboard** rows with each other, or disposing the keys positioned adjacent laterally to each other in all or a part of the **keyboard** rows with a difference of minor third and those positioned adjacent longitudinally to each other with a difference of whole tone in the direction from the front side to the right rear side.
