

MY FAVOURITE FILM

My favourite film is Avatar

I'd like to tell you about the film I saw some months ago in the cinema. It was the film «Avatar», directed by James Cameron.

Cameron spent 400 million dollars on creating that film and it is made using modern 3D-technologies.

So if you wear special glasses you may see a three-dimensional picture.

It is reported that Cameron has been preparing for this film for 10 years!

He thoroughly thought over each of the smallest details of the alien world: from the looks of the characters to the nature and philosophy of the aliens' race.

To tell the truth, I haven't seen anything more interesting and exciting

SÓLO EN CINES

AVATAR

The film describes the events of the year 2154.

Jake, a paraplegic war veteran, is brought to another planet, Pandora, which is inhabited by the Na'vi.

The Na'vi is a humanoid race with their own language and culture and they live in harmony with nature.

When his brother is killed in a robbery, paraplegic marine Jake Sully decides to take his place in a mission to the distant world of Pandora.

There he learns of greedy corporate figurehead Parker Selfridge's intentions of driving off the native humanoids Na'vi.

The woodland of Pandora is rich in some precious material and Selfridge wants to mine for it.

The head of Sec-Ops, Colonel Quaritch promises Jake restorative treatment for his paraplegia in exchange for the information that would enable Quaritch to force the cooperation of the Na'vi.

Jake starts delivering information to Quaritch but he understands that he has made a mistake.

Jake doesn't want Pandora to be destroyed.

After an epic battle for the fate of the planet the remaining corporate personnel are sent back to the Earth and Jake and other scientists are allowed to stay on Pandora.

Jake is happy because he finds his real love here.

I do not want to say the story is simple or bad, it advances the ideas of care for living beings and nature as the only way to survive for the whole planet.

It shows how cruel and irresponsible people may be.

MY FAVOURITE FILM IS AVATAR

o everyone can make parallels to the ecological situation on the Earth and the way people
reat it.

ut y... self

licated, but I strongly

Дякую за увагу !
