

$$50 - 24 = (50 - 20) - 4 = 26$$

The diagram illustrates the decomposition of the number 24 into 20 and 4. A blue bracket is drawn above the 24, with the number 20 written below the left part and the number 4 written below the right part. The number 30 is written above the 50 in the second part of the equation. A cartoon character is standing on the closing parenthesis of the second part of the equation.

$$\begin{array}{r} \overset{\cdot}{5}0 \\ - 24 \\ \hline \end{array}$$

Единицы пишем под
