

Our favorite pieces of the computer world

Hardware

Video card

In our opinion the most important and most irreplaceable and complex part of computer is video card.

Nowadays the most profitable industry is video games. Game studios earn more money than the film studios. And if you want play in the newest game you must buy new video card.

Video card contain processors so it can not only render graphical objects but can do calculations.

If you know about cryptocurrency people massively bought videocard for mining because it was the cheapest way for earn money.

КАРТЫ КРУТЯТСЯ

We believe in the nearest future the video cards will be cheaper and will be warm up less

SOFTWARE

APP

We live in diverse world where software hasn't the certain definition what is it.

It can be operation system or little plugin for student project. It is difficult to cover all types of this. It is why we choose the mobile app .

Today we tell you about “Gordan” app for ios and android. No doubt that Windows is more important and more complicated but in our lives shawarma means no less.

In Gordan app you can configure your perfect shawarma and order it in app, so when you came in restaurant you can pick up your order right now away. It is very useful app what improve many lives.

Bad side of this brilliant app is that it doesn't give gifts and doesn't accrue bonuses.
