SOFIA PLATONOVA 105

'I wish my kids could watch the best cartoons, but we can't afford TV!'

CINEMOOD Storyteller is a super unique portable, the child-friendly projector that brings you safe, pre-loaded content for whenever and wherever your kids want to watch movies, cartoons, read digital books, and more. CINEMOOD offers streaming services like Netflix, Amazon Prime Video and Youtube directly in the app so you can stream your favorite videos anytime, anywhere. Going somewhere without WiFi? CINEMOOD has you covered, just download your favorites from Netflix or Amazon and watch it anywhere! Got your own content? No problem! CINEMOOD lets you watch it too.

But how to use it at home?

The best part about the CINEMOOD Storyteller is that it's ready to entertain you anywhere and everywhere—try it out on that blank wall you never decorated, or lay back and watch a movie on your ceiling. Wherever you choose to view your content, CINEMOOD produces a bright, crisp picture that launches you into an engaging, transformative atmosphere. Need more ideas for using CINEMOOD? Play an audiobook and huddle around for bedtime stories, throw a pajama party and watch cartoons, invite your friends for a crafting party and view step by step directions on Youtube, or just see who can come up with the most creative shadow puppets!

mini cinema projector for family

CINEMOOD MINI CINEMA PROJECTOR FOR FAMILIES

**CREATE MAGIC MOMENTS
WITH CINEMOOD**

Is it suitable for children?

Cartoons for children can be viewed in preloaded content in the menu under **Watch**, in Ameba, **Youtube**, **NetFlix**, **Amazon Prime**, or from a **USB**-drive, loaded into the CINEMOOD from a computer.

In the future, there will be new applications and opportunities for viewing!

CINEMOOD STORYTELLER
FOR EARLY KID'S DEVELOPMENT

Isn't it very fragile?

Basically, there are silicon covers made to fit onto your CINEMOOD Storyteller. Not only do they protect your projector from damage, but they actually extend your device's library with new content (depending on the type of Smart Cover you get). CINEMOOD uses an innovative NFC technology that recognizes which Smart Cover you're using, and then automatically downloads additional content via Wi-Fi. How cool is that!?

CINEMOOD Smart Covers were created not only to protect your CINEMOOD from scratches and other types of harmful exposure but also to **extend your offline library.**

What do people say about us?

- ▶ “It was my son’s 8th birthday and we got him this. It’s pretty cool and we have used it indoors and outdoors. Car rides are so much fun for us now! “

Vanessa

- ▶ “I have to say that this device is amazing! I use it mainly for my baby and she loves it. We can play Disney films on there. Whoever created this is a genius. I look forward to sitting in the garden in the summer watching stuff too!

Megan

How can I get one?

It's very easy! Just visit our website or Amazon.Com! Also available at Urban Outfitters.

Simple instruction is attached, all you need is Wi-Fi for first launch.
