- 
- A close-up photograph of the singer Sia. She is wearing a large, colorful headpiece made of many pipe cleaners in various colors (red, yellow, green, blue, purple, orange). She has short blonde hair and is wearing bright pink lipstick. She is looking slightly to the left and singing into a clear, vintage-style microphone. The background is a plain, light gray.
- It's hard to describe what action have on me her songs. The gain Sia sings well technically, but I lack a little sincerity, and frankness, felt a certain closeness. She has a very recognizable style of singing.
 - She is beautiful!
