

Homo Habilis

Prepared by Artem Dubko
Student of grade 6-a school 423
Saint -Petersburg

When and where they lived

- The Homo Habilis were prehistoric people.
- They lived in Africa, Asia and in the Mediterranean between 2,6 to 2,5 million years ago

Home life

- They lived together in small groups. They did not live in huts or caves. They lived in rectangular pale areas.

Tools and Weapons

- The Homo Habilis did not have not a lot of tools and weapons. They used stone, bones and teeth of animals which they hunted.
- Also they used stones and clubs for defence and attack.

Culture

- The Homo Habilis painted on the stones. They made clothes from animal skins and in hot weather they wore skirts from wild plants.

Food

- The Homo Habilis ate meat, wild plants, root vegetables and fish.
