## TEST 2

**Imagine you are preparing a project with your friend.**

You have found some interesting material for the presentation and you want to read this text to your friend. You have 1.5 minutes to read the text silently, then **be ready to read it out loud**. You will have not more than 1.5 minutes to read it.

Ancient Greece is the birthplace of Western civilization. The Greeks created a way of life that their contemporaries admired and copied. Classical Greek culture, philosophy in particular, exercised a powerful influence on the Roman Empire. The Romans copied Greek art and Greek gods.

The Ancient Greeks established democracy, started the Olympic Games and framed ideas governing science, art and philosophy. The Ancient Greeks lived in mainland Greece and the Greek islands, but also in what is now Turkey, and in colonies scattered around the Mediterranean coast. There were Greeks in Italy, Sicily, North Africa and as far west as France. Sailing the sea to trade and find new land, Greeks took their way of life to many parts of Mediterranean Basin and Europe.

Athens was the capital of Greece. People came to the city from all over Greece, and from other countries, to study, work and to trade. Nowadays, Athens is a world's oldest city, with its recorded history spanning around 3,400 years.
