# a vet = a veterinary physician

- practices veterinary medicine
- treating disease, disorder, and injury in animals

A **vet** works with different animals :  
horses, cattle, rodents, cats, dogs, birds,  
etc.

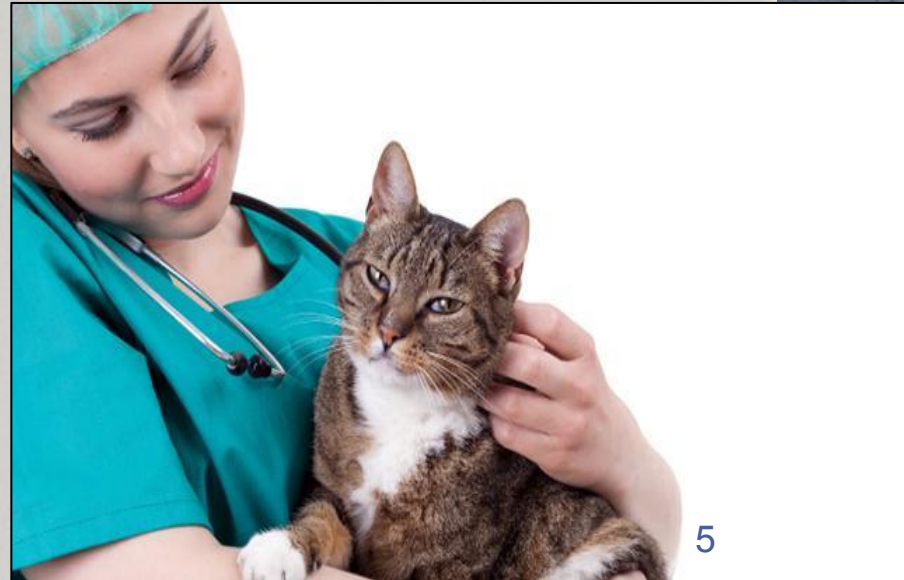

## A **vet** can work:

- in the veterinary clinics;
- in veterinary stations;
- in zoos;
- enterprises for the breeding of agricultural animals and birds;
- in the control points of products and raw materials of animal origin;
- in kennels for dogs, etc.

***Treat animals sincerely  
and they will trust you***

Love is not enough  
A good vet should respect  
animals
