

I would like to
live in South
Korea.

**Now Korea is
a modern
country, but
honors its
tradition.**

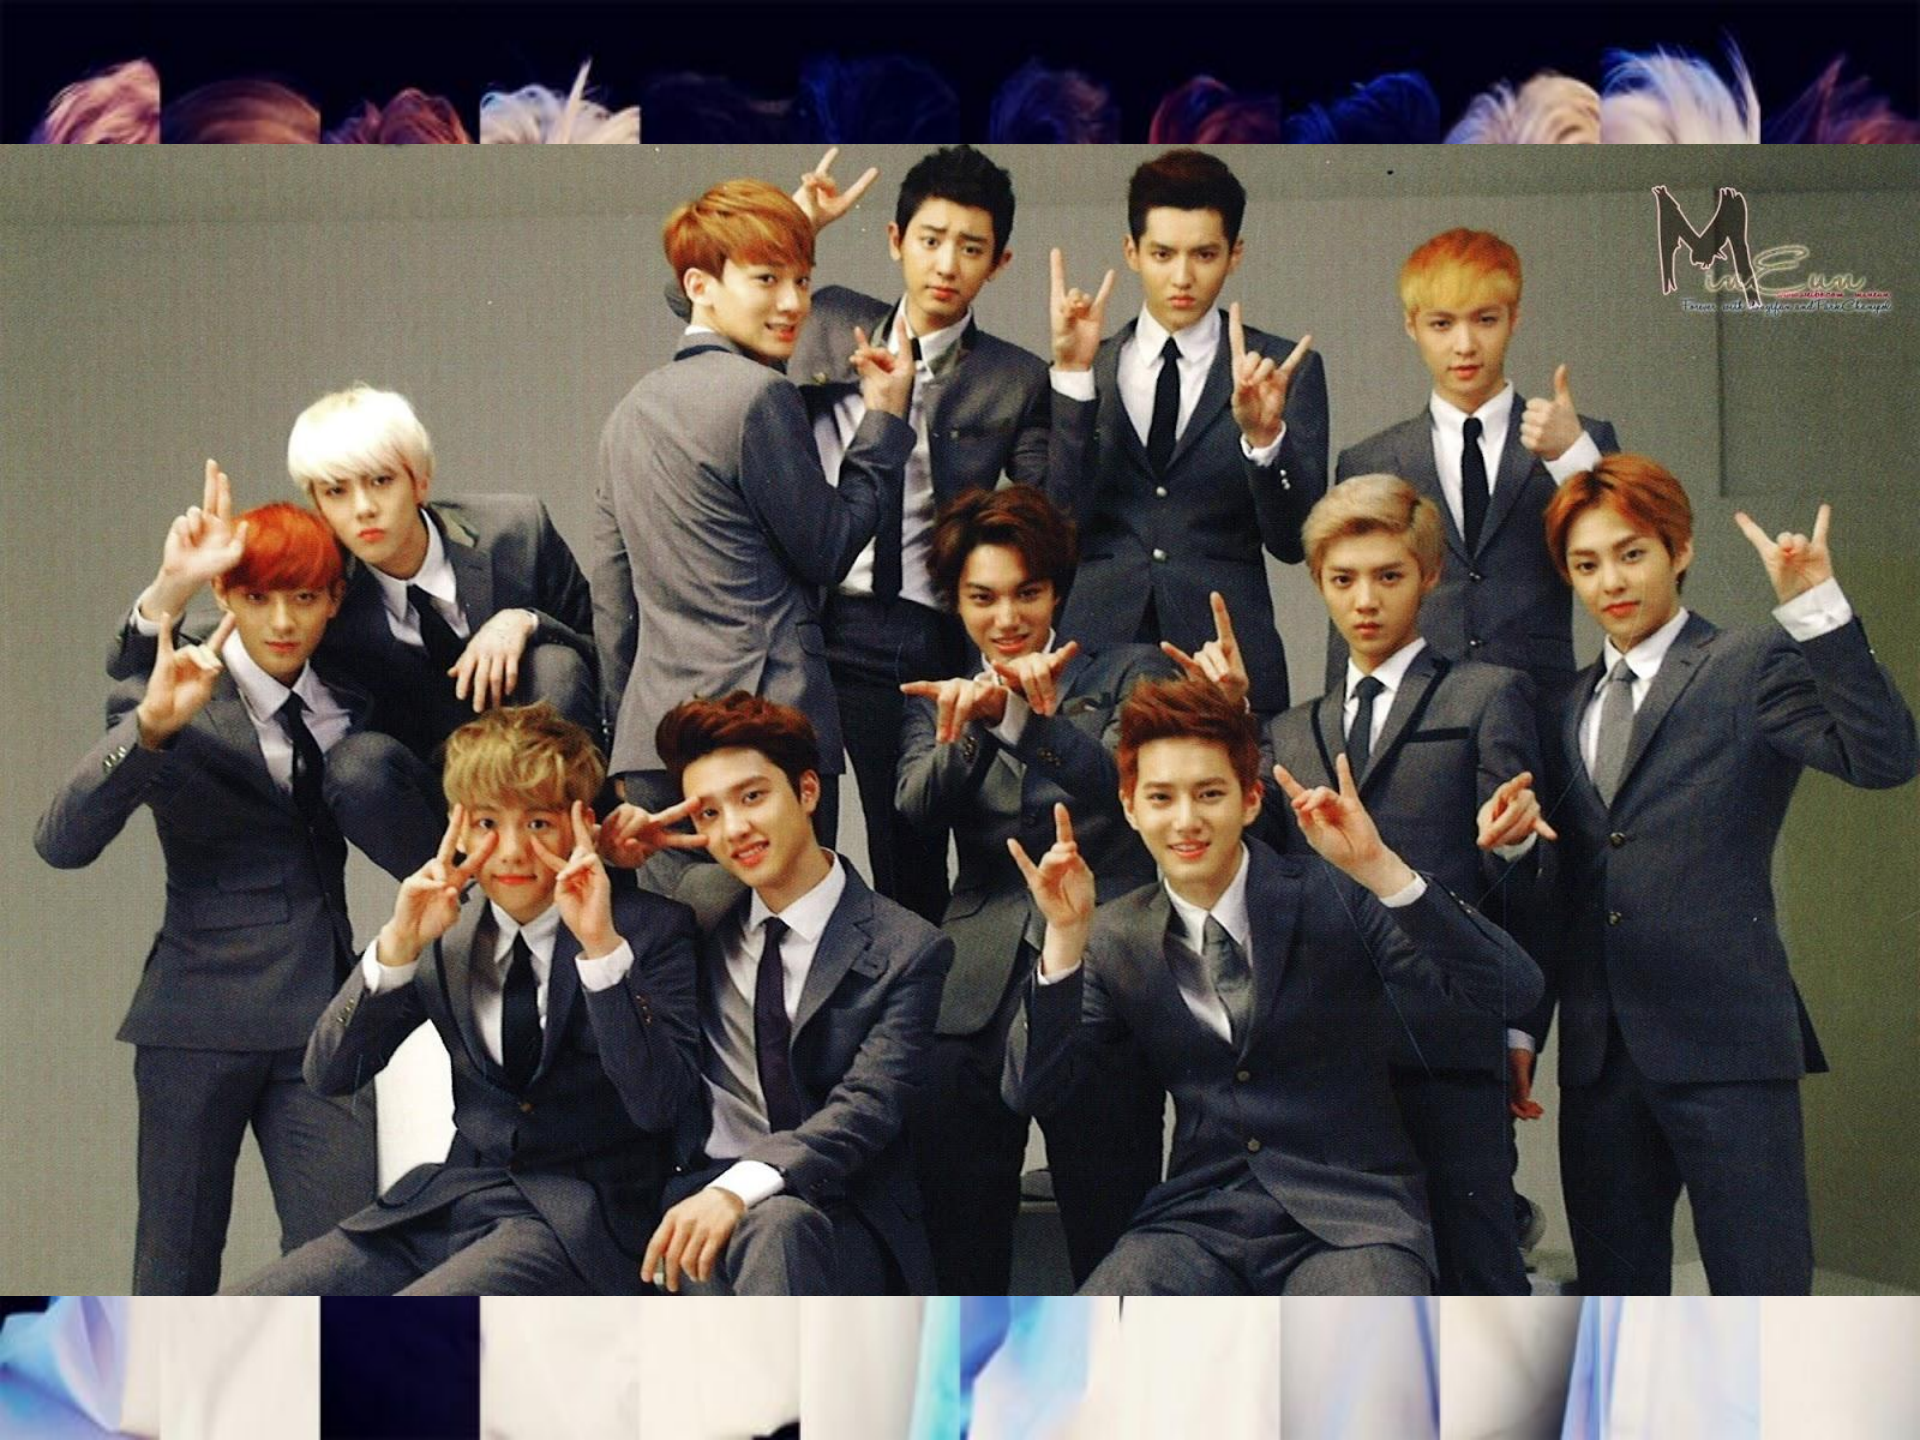

Well-known
groups are

BLACKPINK

A wide-angle photograph of a city skyline at dusk. The sky is a mix of deep blue and orange, with wispy clouds. The city lights are reflected in the calm water in the foreground. The city features several tall buildings, some with glowing windows and others with illuminated signs. The water is dark, and the reflection of the city lights is clear. The overall mood is serene and beautiful.

If to this county
I'll definitely
want to visit
Bussan,

The Five major palaces
in Seoul,

JYP Entertainment

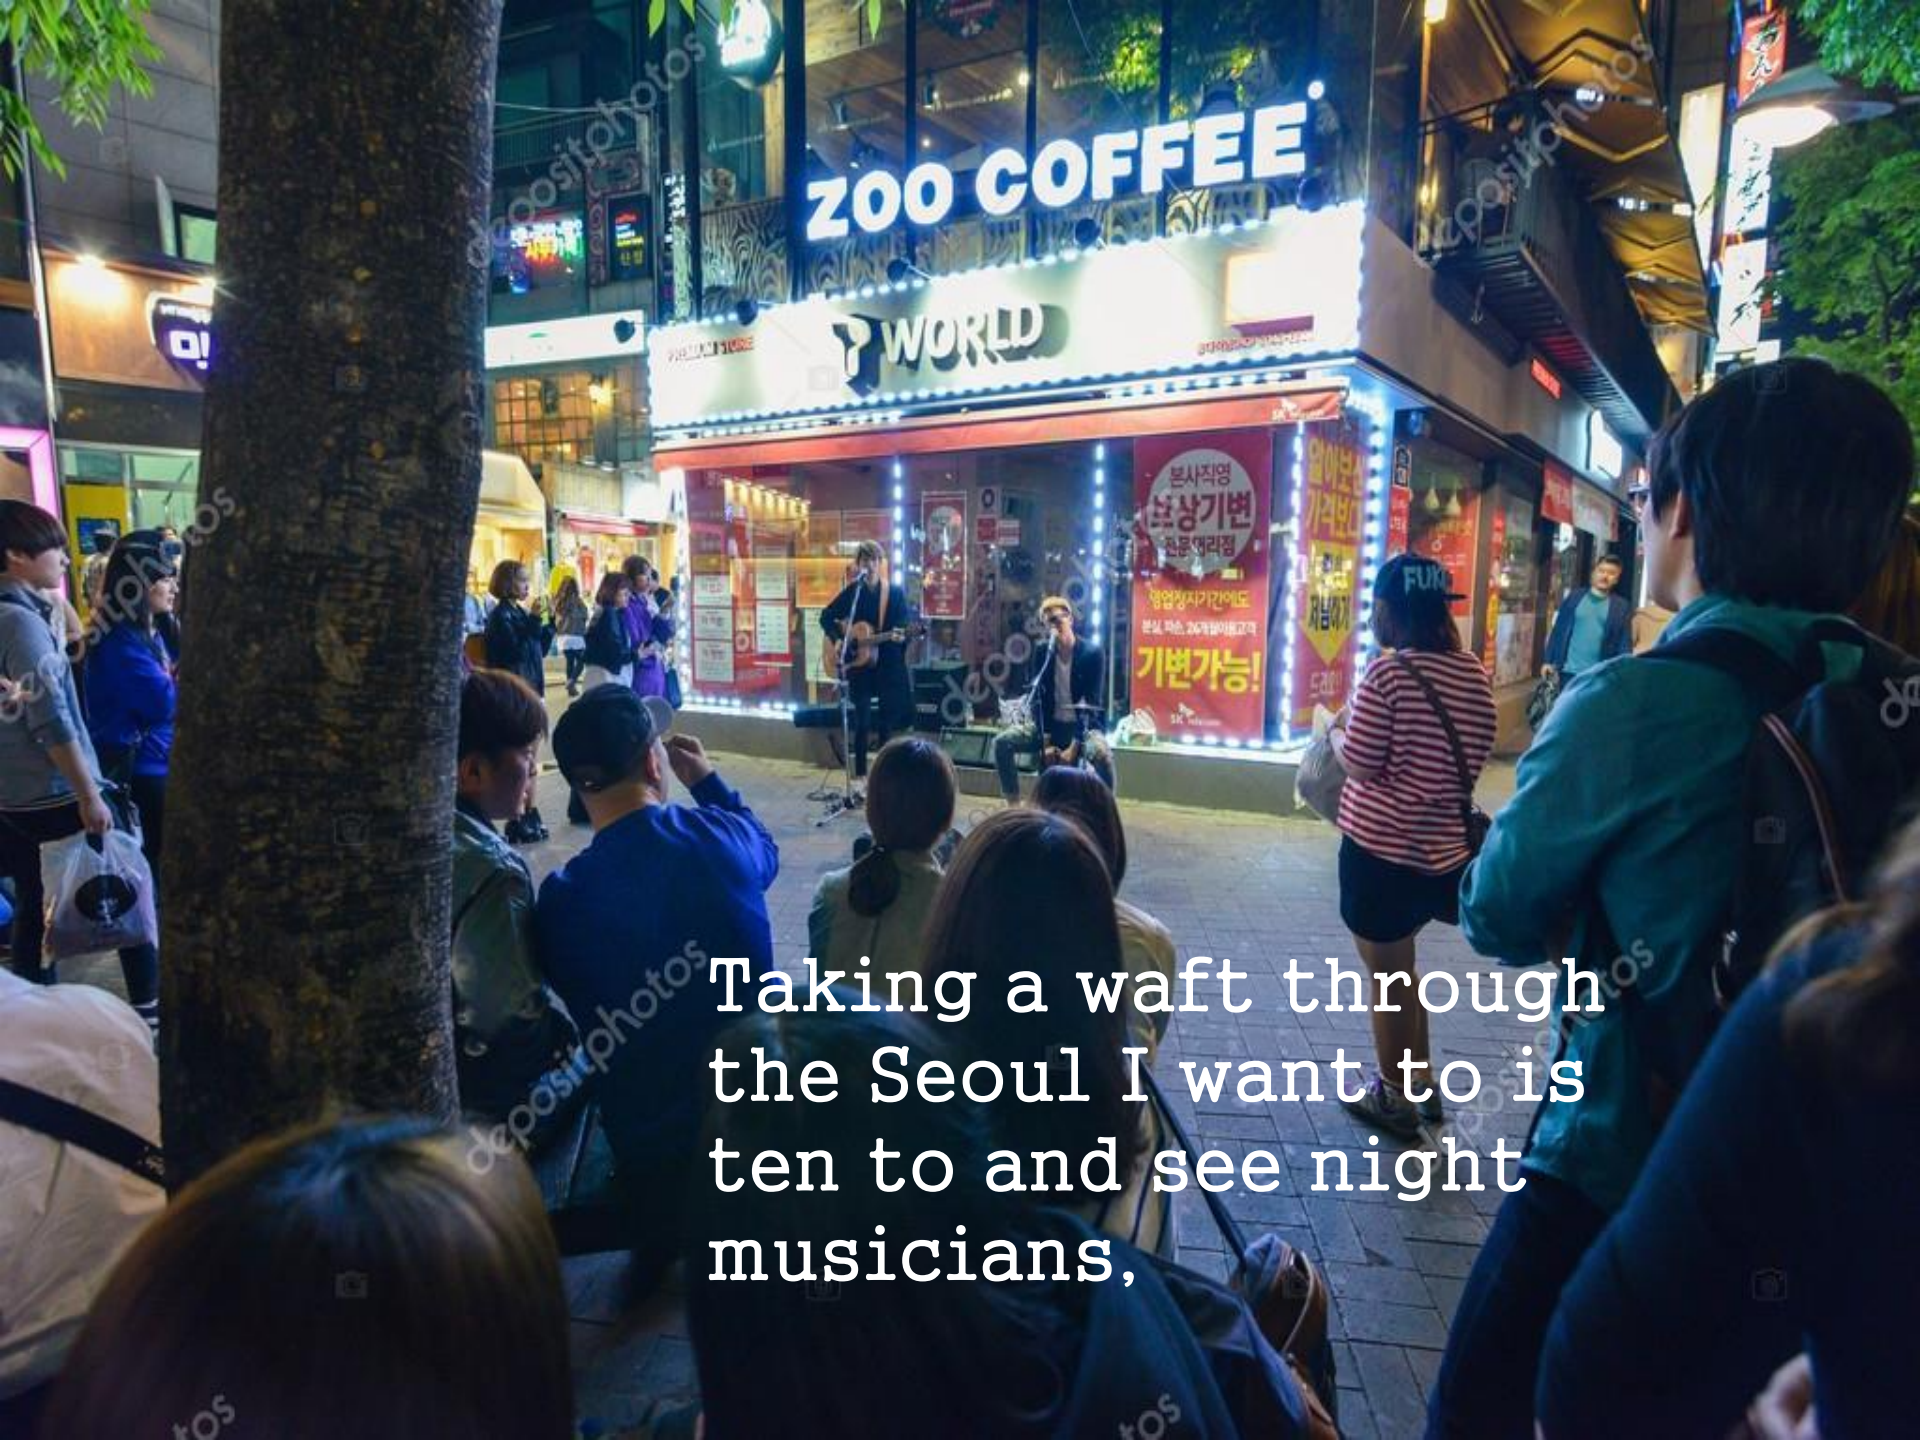

Big Hit

Centum City

Taking a waft through
the Seoul I want to is
ten to and see night
musicians,

And to try Korean
food on sticks.
