If you are a delegate of the Political Committee, you may emphasize the Government section.

In other words – add anything you'd like as long as you mention all the required points.

# POLICY STATEMENT

# *POLICY STATEMENT!*

Your Policy Statement is the document which represents the official position of your country regarding one of the questions of the agenda.

Your Policy Statement should also include information on the factual situation in your country and in the countries related to the issue of the agenda.

## *Definition of key terms*

This part of the Policy Statement includes any terms you believe are important when discussing the stated issue.

For example, if the question of your committee is connected with deforestation, you should say what deforestation is.

## *Background of the topic*

In this section you should speak about the brief history behind the issue – how and when it emerged, which countries are involved.

## *Previous attempts to solve the issue*

Have any actions been taken to prevent this problem? In this section you will need to explain what has or hasn't been done to solve the issue.

## *Your country policy*

Here you should name the official position of your country regarding the issue. Does your government approve of the situation or is it against it?

**Don't forget which country you are representing: give the position of your country, not your own view!**

## *Past international actions and documents*
