Robot-servant 2V-R8

Hello, investors. I give you the most annoying robot-servant 2V-R8

Robot-servant 2V-R8

- New humanoid robot has been designed for many purposes. His height is 170 cm. This android robot will clean your home, make your dinner and do all of your tasks, that you will assign.

Features

- It is managed from a personal computer or the remote control unit. The humanoid has a battery, which is enough for an hour. The robot is equipped with video cameras, gyroscopes, infrared sensors. Furthermore, the android takes voice commands, and in his head there is an embedded projector that can display a chart on the board. Also, it can act on its own.

Supplement

Now, we make custom «Butler» paint-work.
