- T
- “The "battle for energy" in our time matrix has now ended. Planet Earth and the entire time matrix has now entered into a "*Healing Time Cycle*" that is called "**The Cycle of the Kryst**". The word Kryst is the highest sound tone expression of the energy of Source. Therefore, The Cycle of the Kryst is a Healing Cycle in which all life forms in the time matrix can now access more of Source energy to allow the desired healing any life form is able to experience.
- Why has the battle for energy ceased and why has the time matrix and planet Earth been able to "shift" into the New Healing Cycle of the Kryst?

The answer to this question involves understanding many dynamics of energy and it may not be possible for you to understand as well if you have not yet integrated any of the information held within the Freedom Teachings but the concepts will be stepped down for you as much as is possible to assist your understanding.

Simply stated, Earth and its life forms have now shifted into a higher energetic time cycle as a result of the desire of Source to heal ItSelf.

21/12/2012

- Because Krystic Races from connecting time matrices (Krystal River Host) had opened their gate connections to our time matrix to assist our time matrix in being able to retain the ability to receive the higher energy of Source, this allowed planet Earth and its life forms to continue to hold steady in energy accretion instead of losing energy in the higher grid wars the fallen life forms were promoting in an attempt to force planet Earth into black hole fall status.

A fallen life form or reality field occurs when a critical mass damage has occurred to the Divine Template called the **Kathara Grid** and such critical mass damage will no longer allow the Divine Template the ability to receive the Eternal Life Sustaining energy of Source. Fallen races had continued to network together to join forces and combine their reversed, distorted energy supply in an effort to force planet Earth into a reverse spin and align with the gate connection of their fallen black hole systems and then allow them to drag planet Earth into their black hole system.

21/12/2012

- Because Krystic Races of the Krystal River Host assisted by continuing to supply the Higher Energy Flows of Source through their gate network, planet Earth was able to be held high enough in energy accretion even though fallen life forms were trying to steal that energy and force planet Earth to drop in energy accretion. As a result, planet Earth was able to continue to rise higher energy along something called the Krystal Spiral.
- Information concerning the Krystal Spiral compares it to the Fibonacci Spiral (sometimes called the Fib-of-no-chi Spiral) and that consciousness would follow one of the 2 Spirals in their return path to At-One-Ment with Source but the ability to choose which path is always based on the amount of Source energy that the life form can access within themselves. Consciousness would choose either the Krystal Spiral, which is the Organic Creation allowing for expansion or the Fib-of-no-chi spiral being an inorganic creation that consumes everything in its path in order to expand.

21/12/2012

- On December 21, 2012 a Stellar Alignment occurred that brought into alignment Stellar Gates expanding upward through the frequency bands of the time matrix. Because Earth was now able to hold more energy of Source, Earth was able to receive the final 3 of the 12 Reuche' Pillars. **The Reuche' is the Organic Divine Blueprint of First Creation of Pure Source Consciousness.** This allowed the planet the ability to receive a *Higher Infusion of Source energy* but not only planet Earth. This Higher Infusion of Source energy was received throughout the entire time matrix and shifted the entire time matrix into the **New Healing Cycle of the Kryst.**

The structural damage that had occurred to the template of planet Earth and to the higher expressions of planet Earth would not allow the template of these structures to be able to receive a High Infusion of Source energy but because the Reuche' Pillars could then anchor from the highest to the lowest frequency bands, this has allowed all aspects of Earth in this time matrix to begin the process of healing the template structure damage that has been encountered during the grid wars

21/12/2012

Because there are incarnate on planet earth life forms that hold higher template coding that will allow them to activate 24 – 48 DNA strands or up to 48 frequency bands of energy, once they remove their consciousness from the Angelic Human Prototype form through organic process, these life forms carry in their DNA template the coding for up to 48 frequency bands of energy. This allowed planet earth to receive a **"Gift from Source" of a brand new Shield** that the 24 – 48 DNA strand life forms are coded to. A brand new shield was received unto Earth's planetary body because these life forms are incarnate on planet Earth and played their role as the "energy receivers" to allow this New Higher Shield to anchor into Earth's Planetary Template.

- Such a higher infusion of Source energy creates a "leap in time" and is like slightly turning the dial on a radio. This leap in time has allowed planet Earth to "shift" slightly and therefore shift out of alignment with anything that was previously in alignment with fallen life forms and fallen life forms black hole systems.
- This leap in time has now allowed planet Earth and its life forms to return to the status of **"Ascension Able"**, which means planet earth is once again an Ascension Planet. The Higher Shield that planet Earth has now received will allow more of Source energy to remain available to planet Earth and will allow the planet to heal as well as the life forms on the planet who desire to heal. they desire and follow an ascension path of return.

21/12/2012

- The Gift the planet has now received from Source will allow the life forms of planet Earth the ability to **"choose" to co-create a more balanced reality field to experience** but a dual reality field will continue to run on Earth and support all life forms and therefore all life forms choices. This will create pockets or groups of people who will continue to seek and find each other and desire to work "together" to co-create a more balanced structure to experience but those who desire or cannot yet rise high enough in energy to allow for such thoughts, will continue to go about their paradigm of control and warring.

- This means it is of the highest importance for the life forms that desire to heal and co-create a more balanced reality to wake up and remember that they are **Source Embodied**, how their energetic structure works and what they can personally co-create in the desire to heal.

21/12/2012

-
- Desire for healing alone will not allow a rapid healing process to unfold as the process is dependent on the amount of energy of Source that any individual life form can open and hold open within themselves. The thoughts a life form carries plays a major role in the process of healing and until a life form can begin to remember how the process occurs within themselves, they will continue to allow themselves to be influenced by the thoughts of the old, lower energetic paradigm.
- The breadth of information through at least 2008 within the Freedom Teachings continues to be highly suggested by Krystic Guardian Races as assistance in personal template healing. These programs carry with them understanding of many layers of personal anatomy and how to remember to regain control over ones personal template structure and co-create personal healing.

Ascencion

Where one will Ascend to?

Ascencion

- There is not a pat answer to this question for all life forms. But the truth to the answer is that the personal template coding, the personal belief system a life forms choices to hold onto will determine what they experience once they remove their consciousness from the Earth reality field. This has always been the truth and will always be the truth. Life forms experience as their reality field what is shinning forth from their template to allow them to experience. It is impossible for any life form to experience anything that is not coded into their template.

The amount of Source energy that is able to be turned on within the personal template will always determine the thoughts the life form can hold and therefore the reality field they will experience and co-create. There exist mass levels of consciousness, or mass levels of people on planet Earth that continue to hold onto false thoughts and false ideas about creation and therefore there are levels of mass consciousness that continue to co-create reality fields to experience that will support what they choose to believe to be true.

Origins

The Seeding of the Human Race

The Turaneusiam

Humanity began 560 million years ago, as an Immortal [Race](#) called the [Turaneusiam](#) on planet [Tara](#) in [Harmonic Universe-2](#) (HU-2).

The Turaneusiam race had a [12-strand DNA](#) morphogenetic imprint (see: [MF](#)) that allowed for embodiment of the 12 [dimensional](#) frequency bands of an [HU-4 Avatar Identity](#).

Humans were "**Seeded**" on [Earth](#) and created as a planetary [Guardian](#) Race of God-like beings.

The word. "**RACE**" came from the [Anuhazi RAY-sA](#).

"**RAY**" equals Rainbow or Rays of Consciousness and "**SA**" in Anuhazi in this context means "Bearer".

[mes](#))

So **Ray-sa** means "*Bringer or Bearer of the Rays of Consciousness*". The [Humans](#) are the Bearers of the RAYS - the **Ray-sas** (Races). [Tribes](#))

The 12 Tribes

At this time, the creators of the [Turaneusians](#) decided to try another experiment: To seed again their humans into the Earth system, but this would be done more slowly – the genetic imprint of the original prototype (the 12 strands DNA [Silicate Matrix](#)) would be broken down into sections or sub-imprints.

Each imprint would be used to create a “smaller” prototype or sub-species of the original Turaneusiam created in [Tara](#). The genetic package was broken down into twelve units, each containing two primary attributes of the original pattern that contained twelve strands of [DNA](#).

The twelve groups of beings or “**Tribes**” were separated. As each of the twelve groups overcame the duality coded within its genetic structure, it would be brought into alignment with the tribes that have done the same. Through this process the human genetic strain would, over time, evolve into the wholeness of its original twelve strand DNA pattern again.

It was and is a plan that would take several hundred thousand years to complete, *if* the species was able to evolve rather than fall into *de-evolution* once more.

“**Adam**” and “**Eve**” were symbolic personages representing this polarization of the twelve single strands of DNA into twelve sub-species and the birth of duality of [consciousness](#).

The Seeding of humans

The **First Seeding** of the [12 Tribes](#) (12 sub-species) / Etheric Race on Earth 250,000,000 years ago - During [World Three](#). Ended via Electric Wars.

The **Second Seeding** 3,700,000 years ago to the present - During [World Four](#). Ended via The Thousand-year War..

The **Third Seeding** 75,000 years ago to present. (present human lineage)
- During [World Four](#)

Certain disruptive groups visited Earth during several periods of the First, Second and Third Seeding and created certain strains of their own species that could live comfortably within Earth environment.

They began mutating captured humans, seeding the women, and created hybrids causing havoc among the developing human biology and "poked holes" in the cellular genetic imprint. ("junk [DNA](#)")

The Seeding of humans

The original plan for the species, as dictated by the original [Turaneusiam](#) creator groups and their [Breneau](#) allies, was the evolution of the species and the growth of the intellect and intelligence to the point where the truth of origins could be understood.

Once the new human sub-species evolved to comprehend their origins they would be able to reassemble the dismantled DNA within their cellular structure, organize the actual original memory imprints, and with the help of inter-dimensional teachers connect to their original soul matrix families. Only through this connection to their original [Soul Matrices](#) could the species re-bundle the [12 strands DNA](#) of the first Turaneusiam prototype.

The [evolution](#) of the [Angelic Human](#) Lineage has been riddled with war and strife since its creation 568 million years ago, as Fallen Angelic Legions have continually attempted to re-direct its evolutionary path into Fallen Angelic dominion.

This war was brought to Earth from [Tara](#) 250-25 million years ago and has continued ever since, requiring 3 seeding of the [Christiac Angelic Race](#) lines. We are presently in **Seeding-3** of the 12-tribes Christiac Angelic Human evolutionary cycle.

Christos

The Realignment Mission

The Realignment

The "**Christos Realignment Mission**" that is the mission of all [Indigo](#) and [Angelic Human](#) Races and includes all life forms within this [Time Matrix](#).

It is a mission to assist **ALL** race lines to find their way back to their connection to the **One True [Source God](#)** and to reclaim their **Personal Divine Power** in doing so.

A being with a sustained activation of [12 DNA Strands](#) and resulting embodiment of the [Maharata](#) and its corresponding 12-[dimensions](#) of conscious awareness is known as an embodied "[Mahara](#)" (bearer of the Maharata eternal life current), "[Avatar](#)" or "[Christed Being](#)".

Through the implementation of the [Freedom Teachings](#) (**Emerald Order MC** teachings of the [Maharata](#)-“Inner Christos”), the **Angelic Human 12-strand DNA Template** could be regenerated among the Earth human races and the awakened Angelic Humans could **create for themselves** the opportunity of **self-directed [Ascension](#)** out of [Density](#) or **biological immortality** anywhere within the Density systems.

The Realignment

If Angelic Humans are not present on planet, and do not successfully complete their intended role during [Stellar Activations Cycles/Star Gate](#) Opening Cycles, Earth's damaged Planetary [Shields](#) can not synthesize the infusion of interdimensional frequencies from Earth's opening [Star Gates](#). In this event, Earth's [electromagnetic](#) fields reverse polarity and the planet enters [Pole Shift](#) during Stellar Activation Cycle.

The Angelic Human Races of Earth were commissioned to serve as the "*Frequency Transducers*" for Star Gate Frequency during Stellar Activation Cycles; a "Collective Buffer Blanket" to prevent **Pole Shift** on Earth during Stellar Activation Cycles, while progressively resetting the Planetary [Christos Divine Blueprint](#) in Earth's Planetary Shields.

The Divine Commission of the Angelic Human Race, the ***Sacred Mission*** for which we are originally seeded on Earth, is to correct the Fire Letter Sequences within our own and the Earth's Planetary Shields, which were damaged during the "[Fall from Tara](#)" 550 million years ago.

This [Divine Commission](#) is called the **CHRISTOS REALIGNMENT MISSION**

Spirituality

Science and Religion

Spirituality

Spirituality” is simply the portion of true, universal science that you do not as yet understand, for **Science** is truly the **Mechanics of Consciousness** and its manifestations, and [consciousness](#) is the true spiritual essence of the universe, and all life forms contained within it.

Spiritual & Scientific pursuit share a common objective: ***to comprehend the intrinsic order and the mechanics of consciousness and creation***, thus **Spirituality** and **Science** are directly and inextricably intertwined.

The “**greatest falsehood of all**” is the *intentional, complete omission* from the “books of spirituality” of the pre-ancient, advanced **scientific teachings of multidimensional physics** that are contained within the [MCEO CDT-Plates](#) and their original written [Maharata Text](#) translations.

Spirituality

This intentionally contrived, progressively orchestrated omission of historical fact, which has been executed over a period of recent history dating back only to **11,000–10,000 BC**, has culminated in the creation of a “**species-wide mass illusion**,” in which an **inorganic division**, and seeming competition, **between spiritual and scientific realities** is perceived

And through this illusion, a “**spiritless science**” justifies its endeavors without conscience or concern for “spiritual law or consequence” — and a “**science-less spirituality**” remains castrated from the true knowledge through which its lofty aspirations of an “*eternal afterlife and Ascension*” can be fulfilled.

The original MCEO CDT-Plate teachings clearly explained the **inherent *unity* of “science and spirituality”** and the **intimate interrelationship between consciousness, spirit and atomic structure**; they detailed the specific structures and processes inherent to the *science of **multidimensional physics*** by which the *spiritual achievement* of “Ascension” occurs

Spirituality

All beings or things are spiritual beings having an experience in manifestation. No being or thing can be separated from its innate spirituality, only the recognition of its nature.

Because life is substance and expression of the spirit, and the reality of the manifestation is nothing more than a dream, that all will eventually awaken ...

One 15-Dimensional Time Matrix with 5 Harmonic Universes

PRIMAL ORDER of the Dimensionalized Universal Manifestation Template

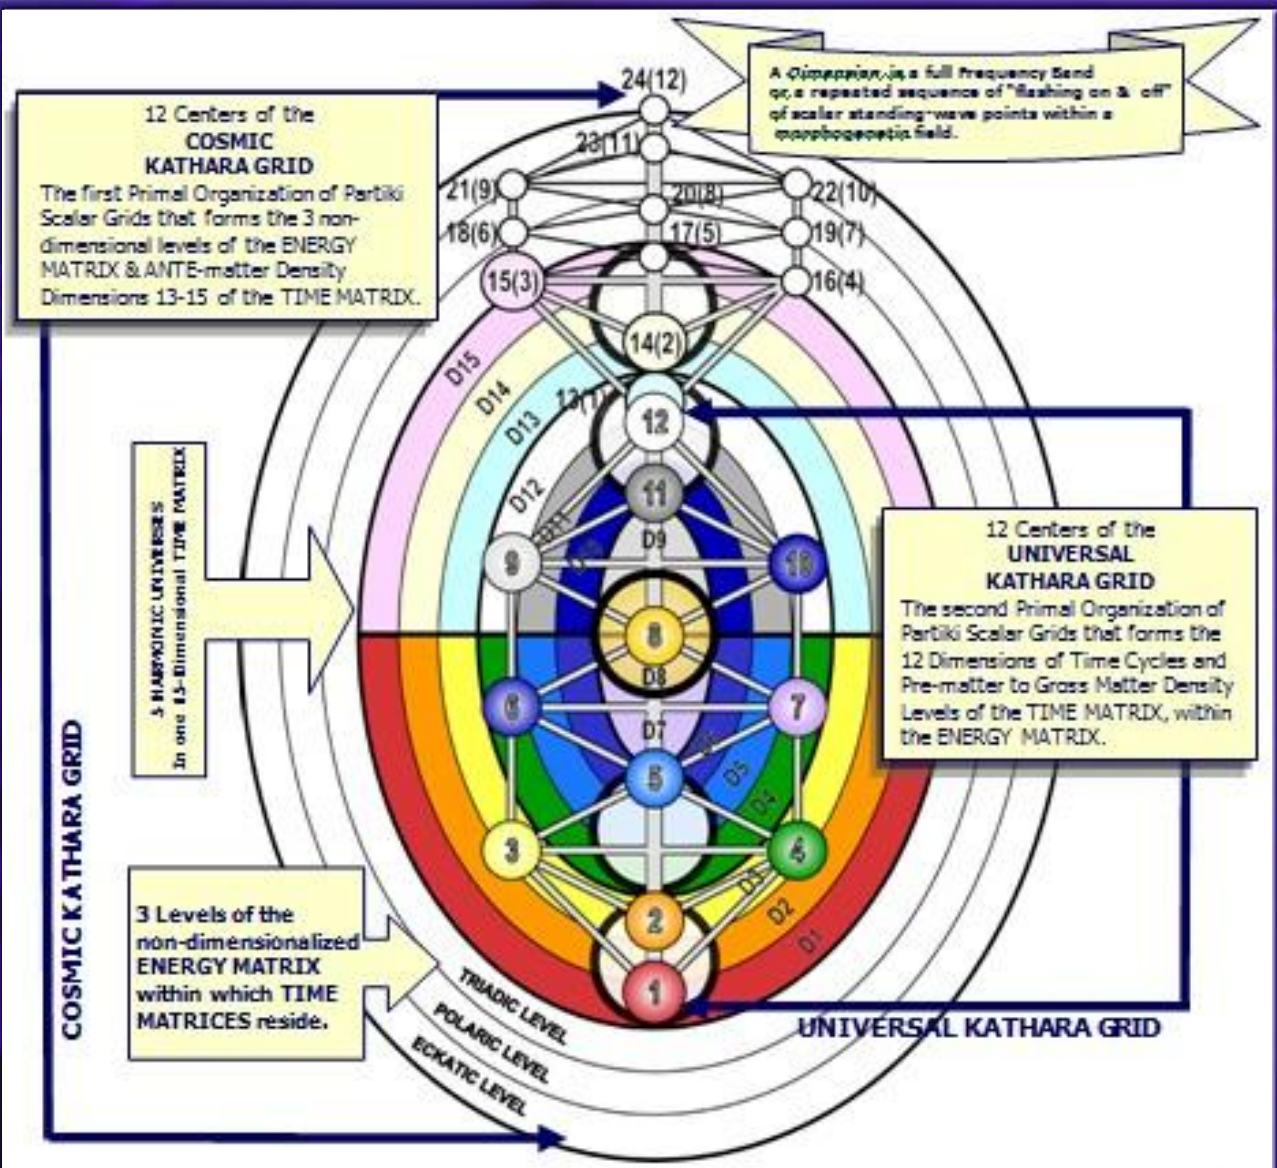

A *Dimension* is a full Frequency Band or a repeated sequence of "flashing on & off" of scalar standing-wave points within a morphogenetic field.

15 Dimensional Time Matrix

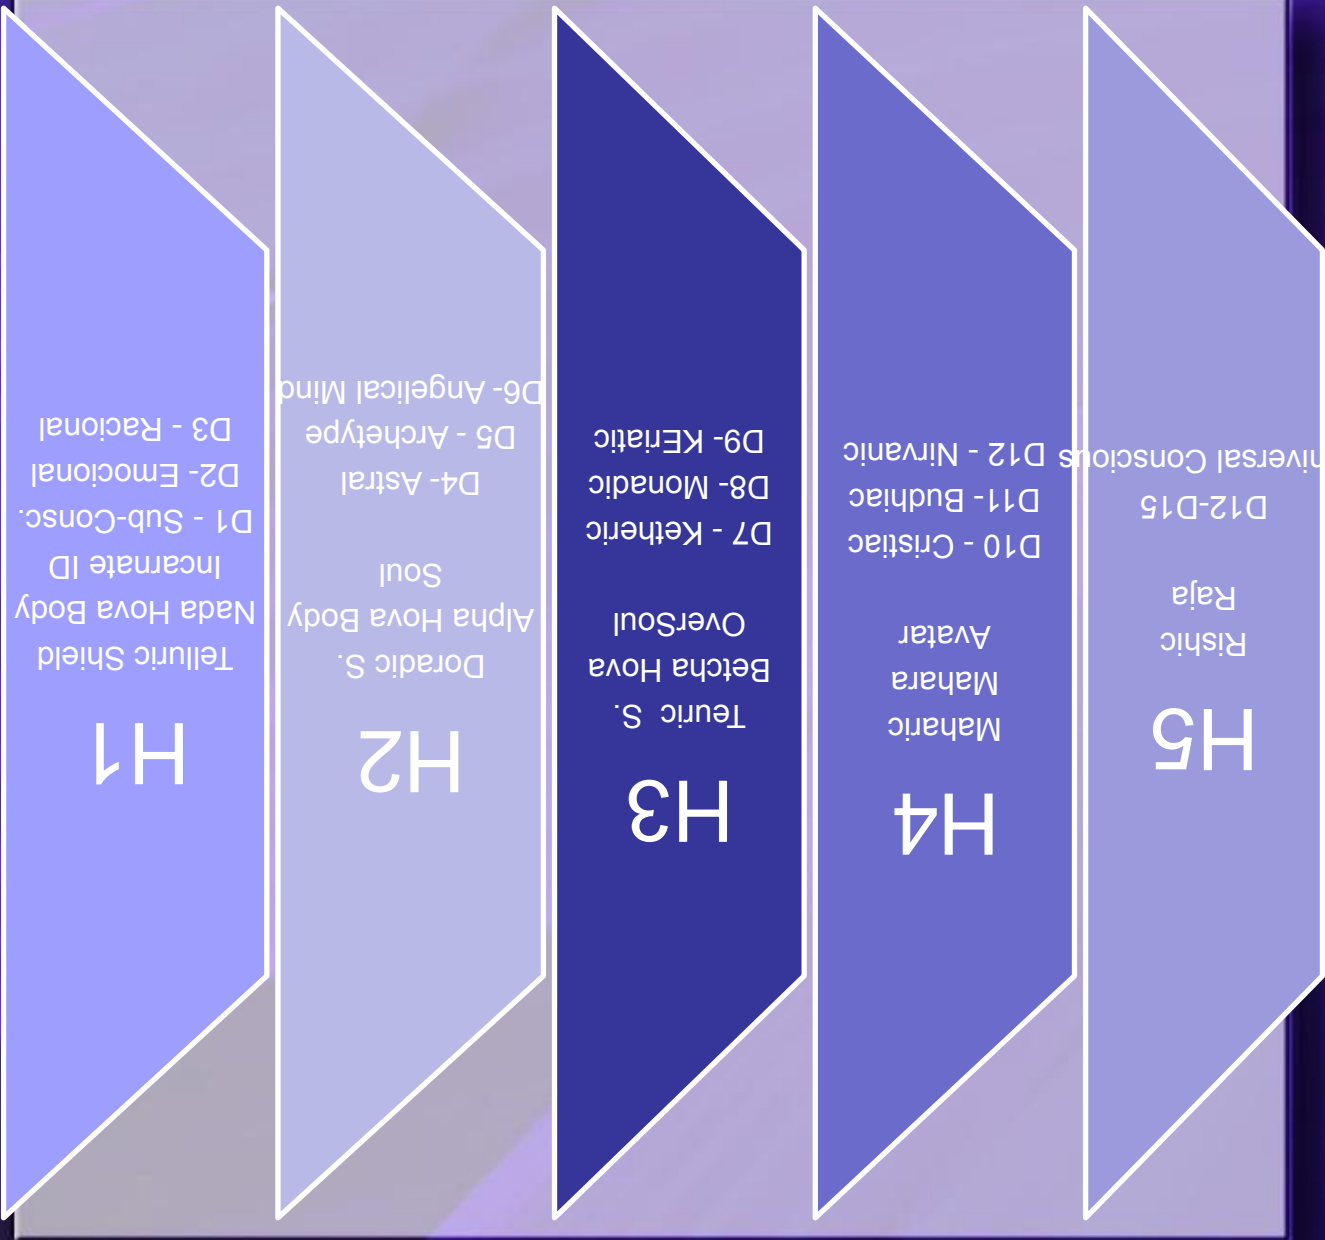

Universal Manifestation Templates (Morphogenetic Fields - [MF](#)) are called **TIME MATRICES**. There are uncountable Time Matrices within the [Energy Matrix](#), which are collectively referred as **The Time Matrix**.

All **Time Matrices** within the **Cosmic Energy Matrix** follow a specific mathematical-geometrical program through which [space-time](#) and matter can be experienced by consciousness upon the **Time Matrix** structure.

Time Matrices are arranged upon a pattern of 15 different, but interwoven, [Partiki Phasing](#) rhythms (rhythms of expansion and contraction of energy).

Each of the 15 rhythms of [Partiki Phasing](#) creates one [Dimension](#).

15 Dimensional Time Matrix

Within the **Time Matrix** the 15-dimensions are further arranged into sets of **3 Dimensions**, forming 5 3-dimensional reality fields called a **Harmonic Universe** (HU), and each HU represents a level of matter densification specific to its intrinsic rates of Partiki Phasing.

One **Time Matrix** is thus a **15-dimensional Scalar Grid** with **5 separate reality fields** (**Harmonic Universes**) corresponding, each one, to one of the **5 different densities** of matter manifestation.

There are 5 simultaneous manifesting **Euiago Cycles** (Time Cycle) in every **Time Matrix**, through which consciousness passes in order to experience linear evolution through space, time and matter, Each **Euiago Cycle** contains within it 6 smaller cycles of time called **Time Continua**.

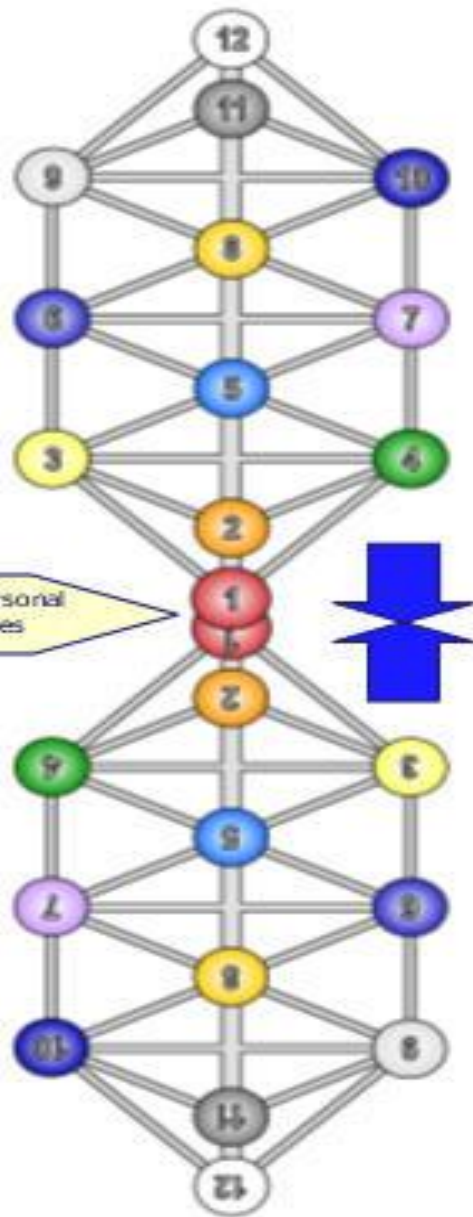

Personal Kathara Grid

Organic connection between Personal and Planetary Templar Complexes

Planetary Kathara Grid

Planetary Bio-Energetic Interface System, PBIS

As the morphogenetic fields of species are interwoven into the larger morphogenetic field of the **planet** they inhabit, there is a *direct energetic connection between the Kathara Grids of individuals and that of the planetary body.*

This connection between personal & planetary Kathara Grids is called the ***Planetary Bio-feed Interface System, PBIS***

Personal Kathara Grid

Organic connection between Personal and Planetary Templar Complexes

Planetary Kathara Grid

Kathara Grid

The word **Kathara** refers to the Core Structure of [Morphogenetic Fields](#), the Holographic Templates of Sound-light and [Scalar Waves](#) that serve as the blueprints on which matter manifests.

[KA](#) - Light, **THA** - Sound, **RA** - One.

The **Kathara Grid** of the human body is the Core [Holographic](#) Template upon which the [morphogenetic](#) scalar-wave template, and all other levels of [identity](#) and form are built. It is the "Control Center" for manifestation of the Human Being.

The **Kathara Grid** is a fundamental structure of [God-Source](#), and it is known as the [Krist Code](#).

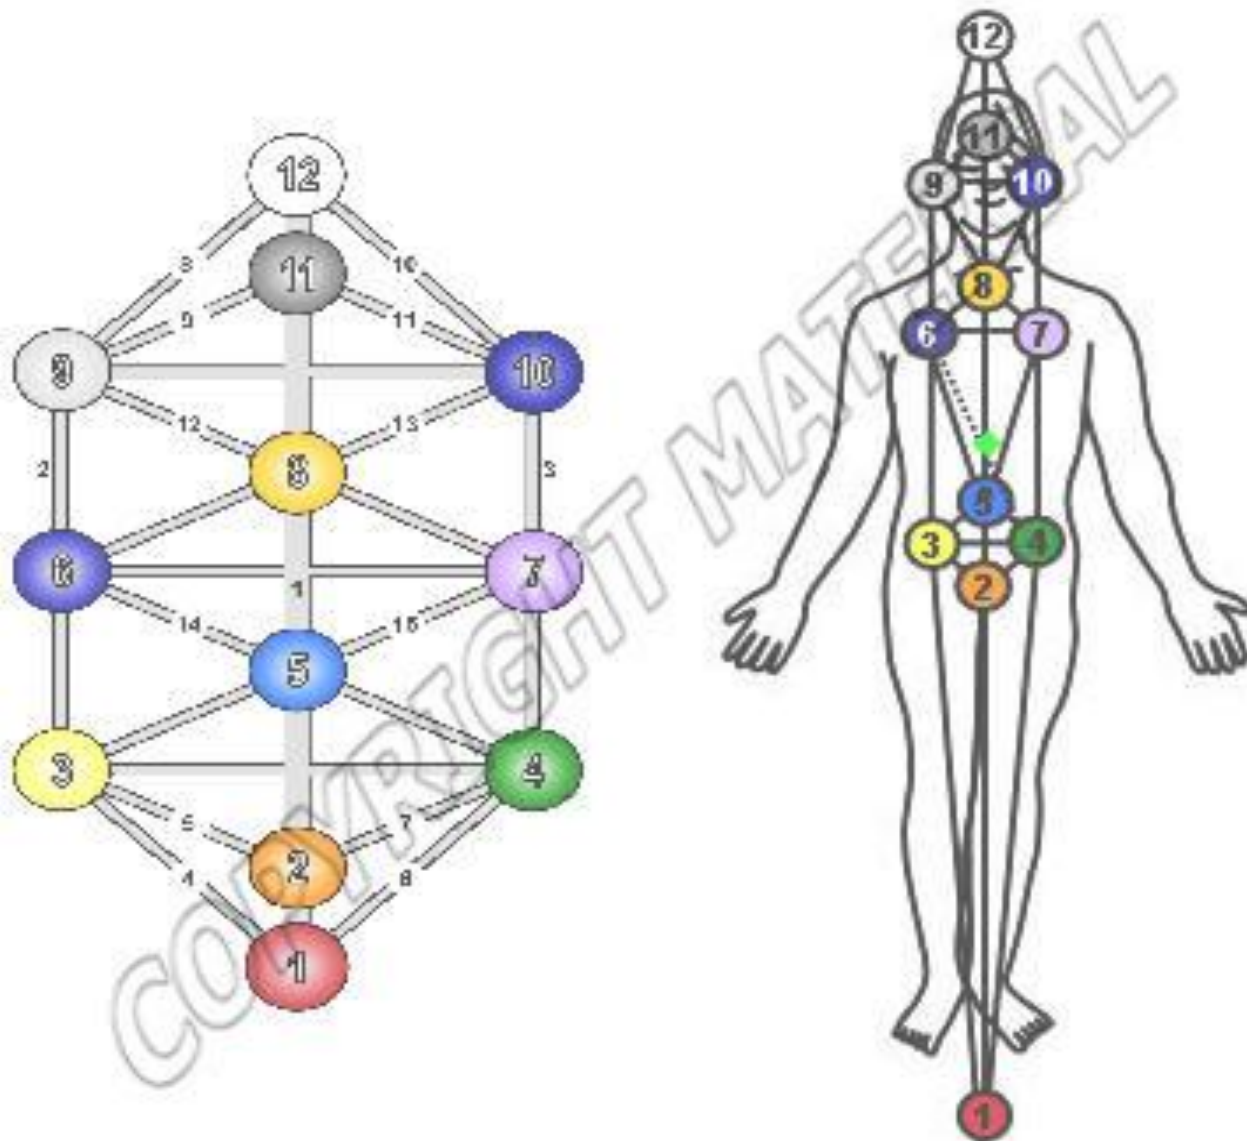

Kathara Grid

It is geometrically structured as **12 Primary Kathara Centers** connected by **15 Primary Kathara Lines**.

It is the **CORE** level of scalar standing wave creation and energetic organization within and behind all dimensionalized systems, and is thus considered to be the **Core of the Holographic Template** upon which the morphogenetic scalar wave blueprint and all other dimensions of form anatomy are built.

The **Kathara Grid** is the causal element within all manifest effects of dimensionalization and consciousness.

The form of the **Kathara Grid** is reflected in the Macrocosm and the Microcosm of all manifestation.

The background is a deep blue color with a complex, abstract pattern. It features several overlapping, curved rectangular shapes that resemble a grid or a series of perspective lines. The lines are lighter blue and create a sense of depth and movement. The overall effect is a futuristic or digital aesthetic.

Human Identity

Human **Identity** and biology come into being as a projection of [consciousness](#) from the collective **Cosmic Morphogenetic Field Identity** (a massive [gestalt of consciousness](#) identity which is referred to by many names; **God**, [Source](#), **Prime Creator**, **Great Central Sun**, etc, etc)

Human identity comes into being as a projection of consciousness arising from "God Consciousness". ([God Source](#))

It is the result of a projection of consciousness which produces and, subsequently, manifest in the [Morphogenetic Field](#) (MF) of the 15-[Dimensional Time Matrix](#) systems.

The stream of consciousness through which humanity manifests emanates from the Scalar Grid or [Scalar Field](#) entering the 15-Dimensional system through the **8D** (8th Dimension) **portal** , subsequently spreading upward and downward through all Dimensions of the 15-Dimensional Time Matrix.

This directly creates the morphogenetic **blue print** of the **human multi-dimensional form**.

Human Identity

Understanding human nature requires more than just understanding the lower dimensions - simply due to the fact that **true human anatomy is comprised** by a **multi-dimensionalized structure** bridging various expressions of conscious identity.

Therefore, incarnate identity exists as one part of a large identity gestalt stationed in the higher bodies.

Higher dimensional identities represent more energy, and therefore more conscious awareness, than lower identities, representing the super conscious aspects of mind and being.

This consciousness is unseen, but **IS** manifest; each aspect simply lies beyond the human perceptual range (wherein lie the additional seven '[senses](#)).

Human Identity

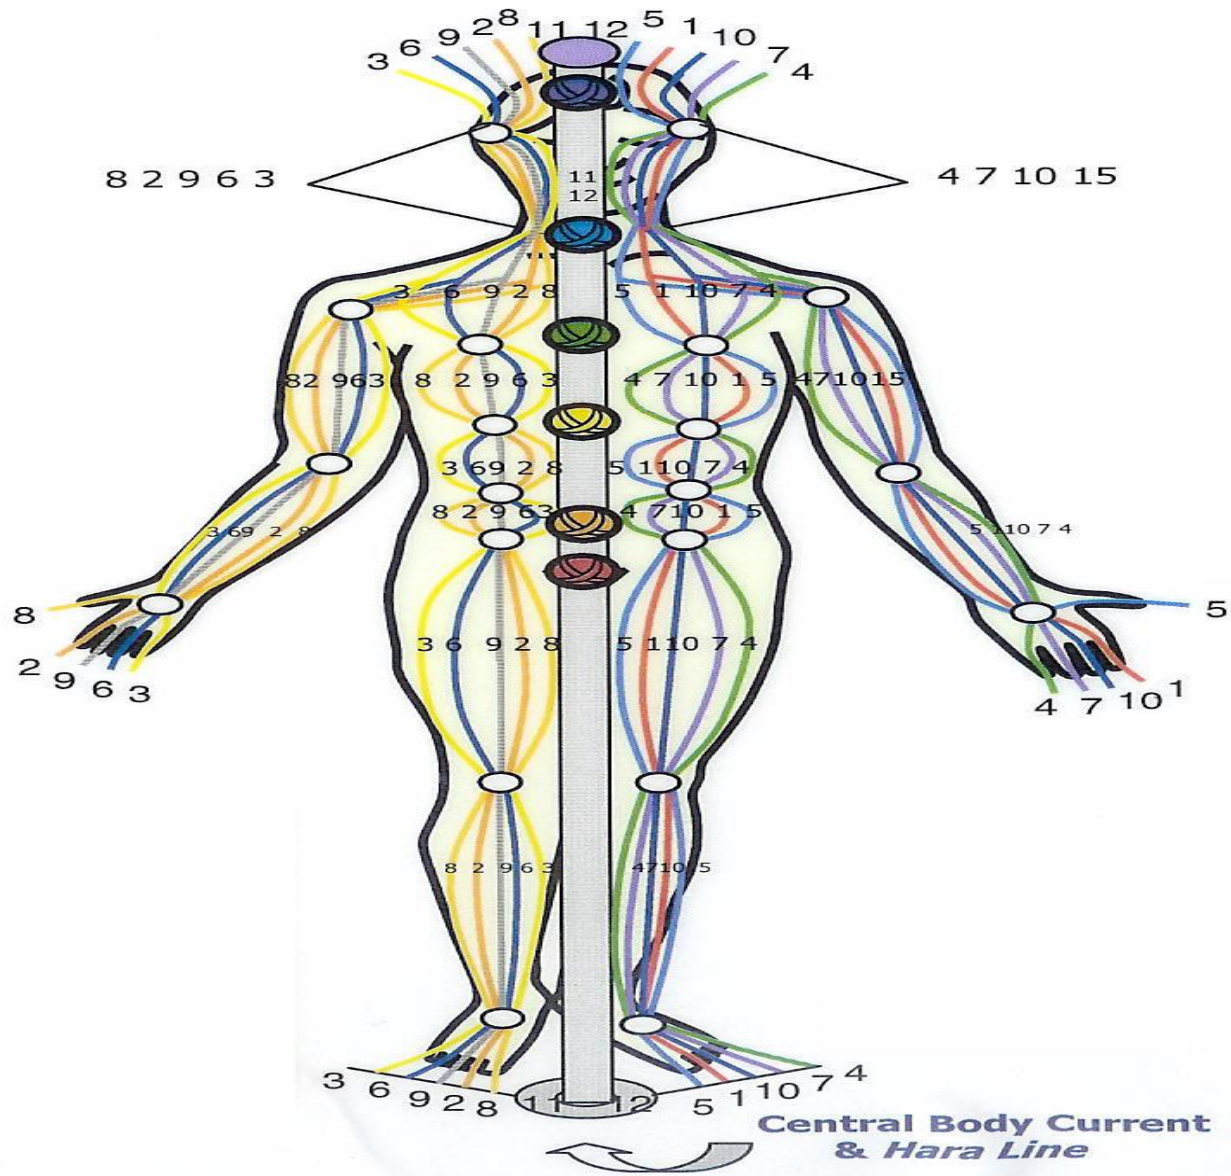

The true process of human evolution is concerned solely with the incarnates' expansion of perceptual consciousness into higher dimensional fields which are outside the perceptual range of the human incarnate identity.

The higher bodies manifest as a direct function of human DNA; the content of which determines the life path, and circumstances, and contour, of conscious awareness that will manifest in each incarnation.

Higher bodies govern the blueprint on which human experience manifest as physically incarnate experience.

Merging these bodies (identities) represents the **key to spiritual enlightenment**, opening incarnate perception to higher level of consciousness.

This means progressively transmuting physical existence into progressively less dense states of matter (Density Level) - finally integrating all its dimensional parts, ultimately returning to its original state of pure consciousness identity.

Axiatonal Lines

The **Axi-a Tonal Lines** are the points where rotating single-axis "flash-line sequence" transmission lines form the embodied [Seed Crystal Seals](#) cross over and through each other to form **12 Primary Vertical Flow Lines** in the body.

The **Axi-a Tonal Lines** create the **web-work of energy** by which the scalar-wave frequencies of the core [Kathara Grid](#) and [DNA](#) Template translate into the [Chakra](#), Meridian-radius Line ([Hara Line](#)) and chemical DNA systems.

Each **Axi-a Tonal Lines** corresponds to a [Dimension](#), DNA Strand Template, Chakra, Seed and [Star Crystal Seal](#) and dimensional level of consciousness, and carries the color associated with the primary wave-length of the corresponding Dimension.

The Axi-A-Tonal Lines create the web-work of energy upon which the Kathara Grid Level-3 Diadic Points & DNA manifest.

Each Axi-A-Tonal Line corresponds to a Dimension, DNA Strand, Kathara Center, Chakra & Seed Crystal Seal, & carries the color associated with the primary wave-length of its corresponding dimension.

The 7 Primary Embodied Chakras emerge where the 11th & 12th Axi-A-Tonal Lines cross through each other as they spiral around the Central Vertical Current. Secondary Chakras form in areas where other Axi-A-Tonal lines cross through each other.

ADN

The Gene Code

ADN

Science does not yet recognize the true 12-Strand DNA of human potential (contained within the cellular material currently called "**junk DNA**")

The foundations of human **DNA** are minute templates of crystallized frequency, that is, electro-tonal sound patterns and electromagnetic light spectra that magnetically group into crystalline form.

These minute, multidimensional crystalline templates are referred to as **DNA Seed Codes**.

The DNA Seed Code, the template for one DNA strand, is composed of 12 magnetic particle units (**Base Codes**) and 12 electrical anti-particle units (**Acceleration Codes**)

ADN

The DNA Seed Code, the template for one DNA strand, is composed of 12 magnetic particle units (**Base Codes**) and 12 electrical anti-particle units (**Acceleration Codes**) Each DNA strand is composed of the frequency patterns and light spectra of one dimensional band.

*Everything **out there** is a holographic projection.* Consciousness projects. We see the hologram because of what is held within our DNA.

Each **DNA** Strand represents a Fire Letter Code/Scalar-wave program sequence corresponding to 1 Dimensional Frequency Band of consciousness/energy

All Aspects of human DNA are built upon this morphogenetic template of 12 **Base Codes** and 12 **Acceleration Codes**. (= 24 Seed Codes = 1 DNA strand)

Junk DNA is "no junk!" But instead part of the heritage that will one day led you back to the wholeness of your identity.

The Reverse Mutation was a process of disassembling the DNA into pieces and left in the cells separated – creating what is now called the **junk DNA**.

ADN

The human genome (the genetic material of an organism) is arranged into 12 dimensionalized mathematical programs, each of which set the blueprint for one Double-helix chemical [DNA](#) Strand.

Each Double-helix strand blueprint is composed of 12 base-magnetic (**Mion**) "female" **Base Codes** and 12 base-electrical (**Dion**) "male" **Acceleration Codes**.

When the human genome is functioning naturally, the 12 Base Codes and 12

Acceleration Codes that hold the mathematical program for each Double-helix strand combine to form a set of 12 **Vector Codes**. (See: [Silicate Matrix](#))

One Base Code + one Acceleration Code = **1 Vector Code**.

The 12 Vector Codes of the human genome manifests as 12 NUCLEOTIDE BASE CHEMICALS that form the Nucleotide Base Pairs of which the chemical Double-helix DNA Strands are composed.

Due to the [NDC](#)-grid "[Checkerboard Mutation](#)" unnatural sonic control program in Earth's grids, only four Vector Codes have been active in biological Earth life since 25,500 BC, making the chemical DNA of Earth life falsely appear to be a "Base 4 Genetic Alphabet."

ADN

The original human genetic imprint is called the **Silicate Matrix** or **Diamond Sun DNA Code**, it is designed to manifest 12 strands of operable DNA, which allows for [perception](#) and embodiment of, and bodily transmutation-transmigration through, 12 dimensional fields and their corresponding levels of [matter density](#).

The **Silicate Matrix** is the hidden evolutionary potential that presently lies dormant within the human genome (the genetic material of an organism) . (The Tangible Structure of the Soul - Page 8)

On a personal level, the **Silicate Matrix** corresponds directly to the levels of identity, the [chakra](#) system, levels of [auric field](#), the [Hova Body](#) anatomy, the operation of the [Kee-ra-shA](#) (Kundalini) energy and the formation of the [Merkaba](#) Vehicle.

ADN

There are 12 dormant [DNA](#) codes corresponding to 12 [Star Crystal Seals](#) and each code carries the frequencies and light spectra contained within the Star Crystal Seal. These dormant gene codes allow for the separate DNA strands to "plug into each other", a condition necessary for [Cellular Transmutation](#).

The 12 dormant gene codes corresponding to 12 of the 15 Star Crystal Seals are individually referred to as **Genetic Time Codes**, Codes of Transmutation or **Fire Codes**.

Collectively, the **12 Fire Codes** are known as the **Silicate Matrix** or the **Crystal Gene**. This is the original gene construction of the human organism.

Due to various genetic mutations, a very small percentage of humans presently carry the entire Silicate Matrix in the personal [morphogenetic imprint](#) for the [DNA](#).

Through distortions within the DNA Seed Codes, the Fire Codes of the Silicate matrix break down and can no longer function.

Without the functional **Silicate Matrix**, the [Star Crystal Seals](#) of the [bio-energetic body](#) cannot activate and thus the body cannot achieve cellular transmutation and becomes locked within its [dimensional space-time](#) location.

Silicate Matrix

The **Silicate Matrix** contains the original [12-strand DNA](#) code structure of the original Taran-human prototype (the [Turaneusiam](#)). It presently exists within a number of humans as *a latent genetic code sequence* that must be brought into activation. Once activated, it allows for the progressive transmutation of form.

Not all humans carry this code, and not all code carriers can endure full activation, but those who carry this matrix (contained within the cellular material you currently call **junk DNA**) have the potential ability of accelerated [evolution](#). They possess within their genetic makeup the latent ability to [transmute cellular structure](#), which will one day allow them to traverse the [time portals](#) and inter-[dimensional](#) passageways without deterioration of their biological form.

The “**Junk DNA**” is “**no junk!**” But instead part of the heritage that will one day led you back to the wholeness of your [identity](#).

Ascension Dynamics

Ascension Dynamics

The [Earth](#) is approaching a [time continuum](#) shift between 5/5/2000-2017. This continuum shift represents a literal planetary time acceleration. Time acceleration constitute an increase in [particle pulsation rhythm](#) for the three-[dimensional](#) ([HU-1](#)) particle base of Earth.

The human body exists as an intrinsic part of the particle content of Earth. As Earth's particle base accelerates in pulsation rhythm, the particle that compose the human [auric field](#) will also increase in pulsation rhythm. If the physical body and bio-neurological structure of the body are not prepared to synthesize the faster pulsation particles of the auric field, this time acceleration will manifest as acceleration of the cellular deterioration process. (See: [Monadic Reversal](#))

For the body to retain its vitality through the Earth's time acceleration, the particle pulsation rhythm of the body's three-dimensional particle base must also increase

Ascension Dynamics

The **Morphogenetic Seed Crystal Seals** within the bio-energetic system of the human body keep the body's particle base locked into the pulsation rhythms of dimensions 1-3 (HU-1).

In order to accelerate the pulsation rhythm of the body's particles, the **Seed Crystal Seal** must be release, to unlock the body particles from the pulsation rhythms of dimensions 1-3.

Seed Crystal Seals are opened by activation of the body's Morphogenetic **Star Crystal Seals**.

The Star Crystal Seals are activated by awakening the dormant **morphogenetic chakra** centers and drawing new frequency patterns through the chakra system into the Star Crystal Seals.

Activation and release of the Crystal Seals creates activation of the dormant Silicate Matrix DNA Fire Codes which in turn manufactures blood-crystal structures that raise the body's metabolic rate and prepare the body for cellular acceleration.

Stellar Activations and Wave Infusions are the process by which the Star Crystal Seals are activated and Stellar Spiral Alignment are the catalysis through which Stellar Activation can occur.

Ascension Dynamics

Humans who complete a **minimum of 1.5 Stellar Activations** will be able to raise the particle pulsation rate of the body sufficiently to avoid adverse effects of Earth's time acceleration.

The process of Dimensional Ascension and **biological and planetary Evolution** is the process of accretion or of drawing of successive multidimensional frequency bands into the morphogenetic field.

As the planetary body or human body evolves through frequency accretion, the energetic capsules within the Auric Field progressively undergo transmutation of form.

Once a morphogenetic field has accreted most of the frequency bands from the three dimensions that compose one Harmonic Universe, the energy capsules that correspond to these three lower dimensions begin to dissolve. The particles contained within the dissolving auric capsules open into the auric capsules of the next three highest dimensions, in the next Harmonic Universe up.

This is the energetic dynamics by which forms and consciousness progressively evolve from one Harmonic Universe to the next

Ascension Dynamics

Earth and the human populations are now approaching a series of [Stellar Activations](#), as part of Earth's natural 25.556-years [Euiago](#) cycle.

The [Auric Field](#) of the planet and those of Earth's populations will undergo transformation between 2000AD-2017AD.

In order to achieve [Ascension](#) to the [Bridge Zone](#) Earth and avoid becoming trapped in the D-3 [time cycle](#), a minimum of one and one half personal [Stellar Activations](#) must take place.

In a normal Stellar Activation Cycle ([SAC](#)) as the Earth evolves, we would evolve with it, expanding our [Morphogenetic Field](#) and raising our pulsation rhythm of particle content until we could evolve into the [Harmonic Universe](#) 2 [Time Cycles](#) to become our [Soul-Self Identity](#).

Ascencion

The promise of Ascension is the hidden heritage and legacy of the human condition, the fulfillment of humanity's evolutionary blueprint.

The Freedom Teachings teach that the process of “Ascension” *takes place* through the *organic structures* of the “**Interdimensional Universal Star-Gate System**,” which is referred to as the “Universal Templar.”

The Freedom Teachings teach that “**Ascension**” happens via the organic process of **atomic Transfiguration**, through which a being is enabled to **biologically engage natural multidimensional spiritual evolution** back into wholeness, freedom and eternal-life expression.

Through the process of *atomic Transfiguration* — which involves very specific structures and processes inherent to the laws of multidimensional physics as they apply to human bio-spiritual anatomy — a human being can experience “**Ascension Passage**” into ever-greater states of multidimensional bio-spiritual evolution.

Ascension

Ascension is not some lofty spiritual concept design by the minds of man, it is a literal, tangible scientific process of the [evolution](#) of [consciousness](#) and biology within the laws of energy mechanics that apply to a multidimensional [reality system](#).

You can go about your human lives, with your consciousness confined to the limitations presently imposed by your physical body, or you can learn the mechanics by which those limitations can be released, and begin to experience the [reality](#) of freedom that is the comprehension of yourself-as-[soul](#).

Whether or not you view ascension and multidimensional evolution as a reality while you are alive on Earth, you will be directly-faced with that reality once your consciousness has passed out of physical life and into the multidimensional framework.

At the [death](#) of your physical body you will discover that your consciousness lives on and your [evolution](#) continues.

All souls will eventually evolve and ascend through the 15-dimensional scale, to re-emerge as sentient identity within the realms of pure consciousness beyond the dimensional systems. (See: [Time Matrix](#) and [Dimension](#))

Immortality, freedom from death, disease and [pain](#) are the natural birthrights of your species.

Ascencion

This is a **personal responsibility**, and although [Guardians](#) from [HU-2](#) (Harmonic Universe-2) can assist in this process, the ultimate success of [DNA](#) building lies in the hands of the embodied consciousness who directs this process by the way in which personal energy is used and applied.

The process of **Ascension** is simply going "up", going up the dimensional scale by raising the [particle pulsation rhythm](#) of your body. It's a holy concept because that is what the concept of Spiritual Evolution really is about. As you do this you pull in more [At-one-ment](#) with your [God/Source](#).

So **Ascension** is a religious concept and a scientific concept all at once.

The process of [Dimensional Ascension](#) and biological and planetary [Evolution](#) is the process of [accretion](#) or of drawing in successive multidimensional frequency bands into the [morphogenetic field](#).

As the planetary body or human body evolves through [frequency accretion](#), the energetic capsules within the [Auric Field](#) progressively undergo transmutation of form.

***Merkaba: Expression of God Force
in Movement***

A set of counter-rotating, electro-magnetic energy spirals.

Energy moves from the seven outer layers of the Auric Field (D-9 through D14) and into manifestation within dimensions 1-7, through the structure of **Merkaba Fields**.

Each form has fifteen dimensional **Merkaba Fields**, which hold its morphogenetic imprint intact within the 15-dimensional Unified Field.

Through the rotation of the 15 **Merkaba Fields**, an energy structure in the form of an "egg" or capsule is formed within the dimensional Unified Field of each of the 15 dimensions.

So, how does life-force energy get from the acorn to the outermost leaves on each branch?

How does Source project itself into every atom in existence?

The tree has an intricate yet elegantly simple network that moves from acorn root to trunk to branch to leaf.

Similarly, Source has created a network of communication by which it not only transmits energy from **itself as Kristus to itself as every atom**, but by which it, in turn, receives communication back from each expression of itself. Thus, the leaf gives to the acorn just as much as the acorn gives to the leaf. This communication system of Source is known as **Merkaba**.

In its most basic expression, Merkaba takes the form of two **Counter-rotating Spirals** which continually expand and contract the **perpetual supply of renewed energy radiation** into and out of manifestation i.e. out from and back into Source.

Transduction Sequence

Through complex morphogenetic field dynamics known as the **Transduction Sequence**, frequency from the dimensional Unified Field of energy surrounding the body is drawn (accreted) into the morphogenetic imprint for the DNA, which begins progressive manifestation of the dormant strands imprints (through particle accretion) within the physical, operational gene code, as the dimensionalized conscious awareness within the Unified Field progressively enters embodiment, for growth and expansion of the physical body and consciousness.

This "**Sacred Sequence**" encompasses the very specific structures of multidimensional anatomy. mechanics of inter-dimensional physics & related functions of energy, consciousness & spirit by which manifestation occurs.

Bio-Regeneration

The background is a dark blue gradient with a faint, semi-transparent image of a laboratory. In the center, there is a petri dish containing a grid of small, dark, circular spots, likely representing a cell culture or a microarray. The overall aesthetic is scientific and modern.

Bio-Regeneration

Bio-regeneration is a term that refers to a set of Technologies and Tools that assist us in accelerating our expansion of consciousness through the natural, gentle stimulation of the personal DNA TEMPLATE, Universal KUNDALINI energies, CHAKRAS and MERKABA vehicle.

Bio-regeneration techniques are built upon the foundations of KEYLONTIC MORPHOGENETIC SCIENCE and advanced SCALAR MECHANICS, as understood by races of higher evolution and taught as "Common Knowledge" within the Ascension Schools of Pre-ancient advanced human cultures and were utilized as standard practice in pre-ancient time periods.

Bio-regeneration Technologies are SPECIFIC APPLICATIONS OF CONSCIOUS ENERGY DIRECTION WITHIN THE MANIFESTATION TEMPLATE OF THE BODY that stimulate into activity dormant portions of the personal Manifestation Template, which allows for a natural progressive and accelerated advancement of the personal **ORGANIC EVOLUTIONARY BLUEPRINT** of the 12th dimensional Omni-polar Pre-matter Template.

Bio-regeneration Technologies simultaneously create subtle, natural acceleration within the interwoven energy systems of the DNA Template, Chakra System, Merkaba Fields, Kundalini Energies, higher dimensional consciousness, and "Subtle Energy Body" anatomy.

Kathara Healing

The background is a deep blue gradient. In the center, there is a faint, semi-transparent image of a hand holding a small, round, textured object. The object has a grid of dark dots on its surface, resembling a seed or a piece of wood. The overall aesthetic is calm and spiritual.

Kathara Healing

Bio-regenesis of Primal Order within the Organic Imprint for Health creates **True Healing** and expedites the natural processes of human evolution.

If one is to become fluent in the art and science of **Bio Spiritual Healing**, it is necessary to become familiar with the **primary structures of energy** within which existence takes part.

Without this understanding one will be unable to identify the *true nature of systems* and their *intrinsic functions*. If we don't understand the intrinsic order of a system and the elements that make up its parts, our ability to comprehend the organic functions of the system will be limited, as well as our comprehension of ***the causal elements behind the apparent observable effects***.

Kathara Healing

The **KATHARA Bio-spiritual Healing System** is the keystone teaching at the center of a huge body of material, all generically called the "[Freedom Teachings](#)", these are translated (not channeled) from Pre-ancient, Pre-atlantean, "[Law of One](#)" [Maharata Texts](#), traces of which appear in various forms within many popular paradigms associated with "[Ascension](#)", "[Merkaba](#)", "Healing" and Personal Spiritual Empowerment.

The tangible difference between popular paradigms and **KATHARA** is the self-evident, and utterly profound sense of depth, breadth, and sheer "rightness" that the materials inherently demonstrate; and to a degree truly beyond comparison.

So much so, that immense new scope is now available to develop evermore robust patterns for dramatic personal healing, growth and consciousness expansion.

KATHARA reveals the Anatomy of Creation, Core Structure, the blueprints and interconnectedness of all matter forms reaching far beyond the framework of all other holistic Healing Modalities while still embracing them fully. The **KATHARA** framework enables the Core Programming Center of all life and all life conditions, to be directly accessed, to provide restoration, revitalization and regeneration of the natural Divine imprint for health ([Divine Blueprint](#))

Kathara Healing

Other energetic holistic systems utilize various "different" levels of the Morphogenetic Field, from the [Chakras](#) and [Bio-energetic Auric Field](#), to Meridians and [Axiom A](#) & B tonal lines, to facilitate healing limited only to the level of the blueprints of physical form.

The **KATHARA Healing** works with the core of manifest structure, it is highly compatible with all other Holistic, Traditional and Spiritual Healing systems, serving to amplify, intensify and harmonize the beneficial effects of multiple healing system combinations.

However, where numbered dimensional structure is held to be critical to the modality, some practitioners may suppose, initially, that compatibility may be more limited than is in fact the case.

Many Energetic Healing Systems that employ the framework of numbered dimensional structure do not fully acknowledge the intrinsic morphogenetic structure of the dimensional framework itself and therefore often confuse dimensional sub-harmonics and sub-frequency bands as full dimensional spectra

Kathara Healing

The **Kathara Bio-spiritual Healing System** provides direct access to the intrinsic, core basis, original causal condition of dis-ease and its myriads of manifest form. All original, core, conditions are manifest as electro-tonal-scalar program of "[Fire Letters](#) and [Geomantic Codes](#)" (which function as [Scalar Wave](#) Guides).

The "[Freedom Teachings](#)" of which the **Kathara Bio-spiritual Healing System** is an ultimate keystone, represents the authentic voice of the [Law of One](#); a truth every open minded person, who has encountered the range, the depth, and the seamlessness of the "bodies of proof" offered, would readily, and eagerly confirm.

The Foundations of these material are vested in solid, advanced spiritual-scientific principles, build upon multiple dimensional structure, that reach beyond the **Quantum**, [Unified Field](#) and **String Theories** presently entertained by contemporary science.

And, it is on this unprecedented level of detailed and tightly integrated reasoning that a fully comprehensive Model of [Identity](#) Structure, and spiritual-psychological function, is presented.
