Music in our life

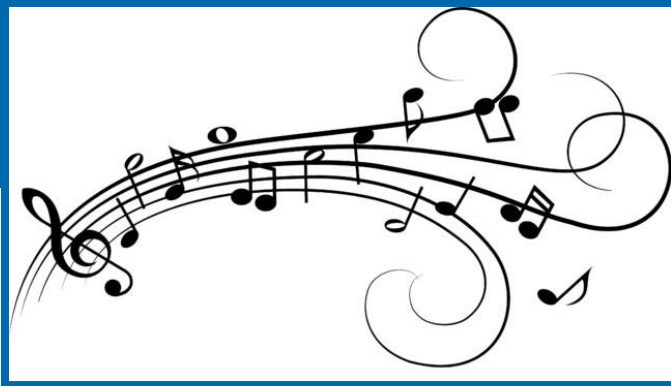
People cannot live without music. They listen to music, dance to music or learn to play musical instruments. There is music everywhere: at home, in a concert hall, in the park, at the seaside, in the forest and even in the street.

Music is not only a combination of pleasant sounds. It is an art which reflects life. Music reflects people's ideas and emotions.



In this world of ours, filled with conflicts, tragedies, joys and hopes, music strives to speak to people of what is most important, urgent and poignant.
Music in the lives of different people is different: some compose music, others play music, and others only listen to it.

A lot of people who cannot play any musical instrument love to listen to music at home or at a con-cert. Different people like different kinds of music. You may prefer pop or rock music, country or folk music, classical music or jazz, but you certainly cannot think of a day without music.

My favourite singer

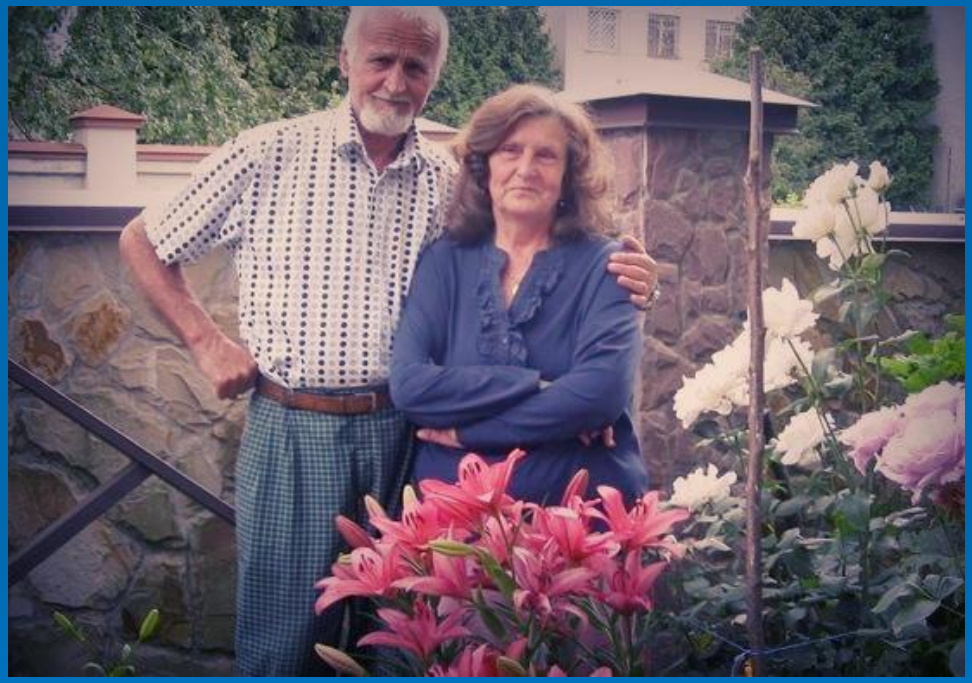
I like many singers, but I believe that the best is Andrey Kuzmenko leader of group Scriabin. He was born August 17, 1968 in Lviv region, the town of New Chapter in the family music teacher and engineer.

It is thanks to his mother future star began to make music, and later graduated from music school piano he studied at the Lviv Medical Institute and has the potential to become a dentist, what parents of artist really like .



However, the profession itself Andrew absolutely did not like and he actively continued to make music. In 1987 he wrote the songs “Lucky Now” , “Brother” , “Yes it already is” . In 2006 Kuzmenko proved himself as a talented writer after the publication of his own book, his autobiography, "I, Victory and Berlin."

It was very popular and was reprinted several times. Kuzma was very talented, popular singer, actor and writer. But unfortunately his life was interrupted by an accident which occurred on the second of february 2015 approximately at 8.20 am.

The end!
