

My hobbies

Many people have a hobby. They make our life more interesting. Some people like to draw, others like to read books. Some people like to collect stamps, other like cooking. Simply put, a hobby is a matter of taste.

My first hobby is listening to music

- My first hobby is listening to music. There are many things, and not only material, without which a person cannot imagine his life. For me, one of these things is music. When I put on my headphones, I dive into the other world

- I listen to music of various genres. Music helps me to relax and think about important things. My favorite groups are: Nirvana, Arctic Monkeys, and Pink Floyd

My second hobby is playing computer games

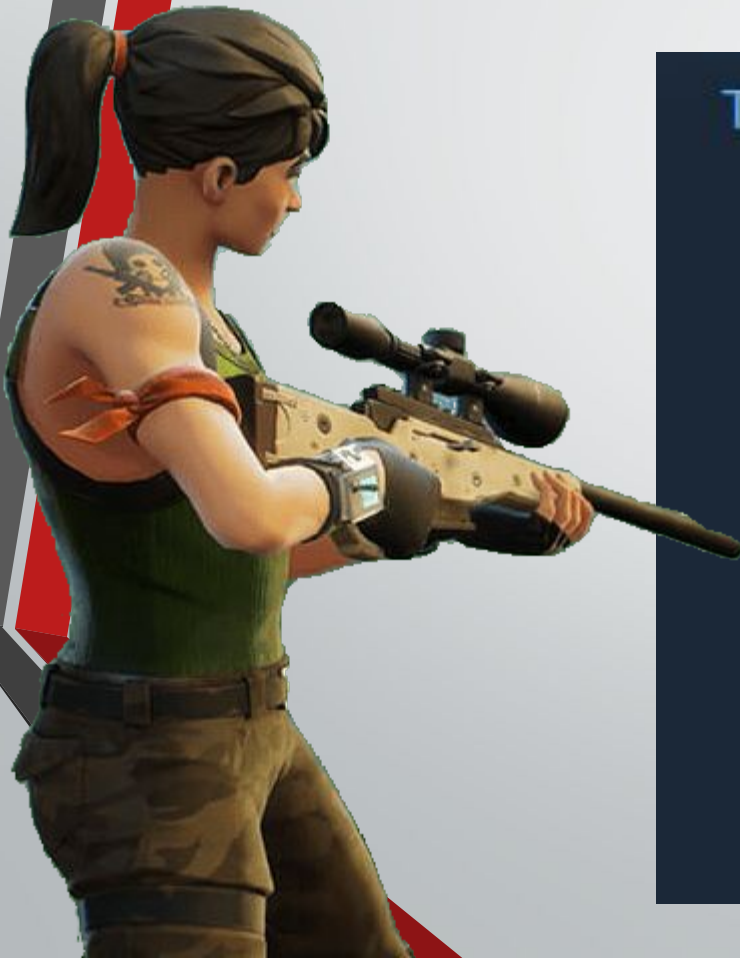

- Playing computer games is very interesting, especially when you play online games such as DOTA 2, Battlefield , Counter Strike, Fortnite and others

- With the help of games you can find friends and have fun with them. And to find a friend is not difficult, because every day millions of people play games at the same time.
