I would like to tell you about my journey to Japan.

Last year I had I chance to visit this wonderful country and I think it is the best journey I have ever had.

I visited Tokyo, Misima, Yokohama, Kyoto and many others large and small cities of Japan.

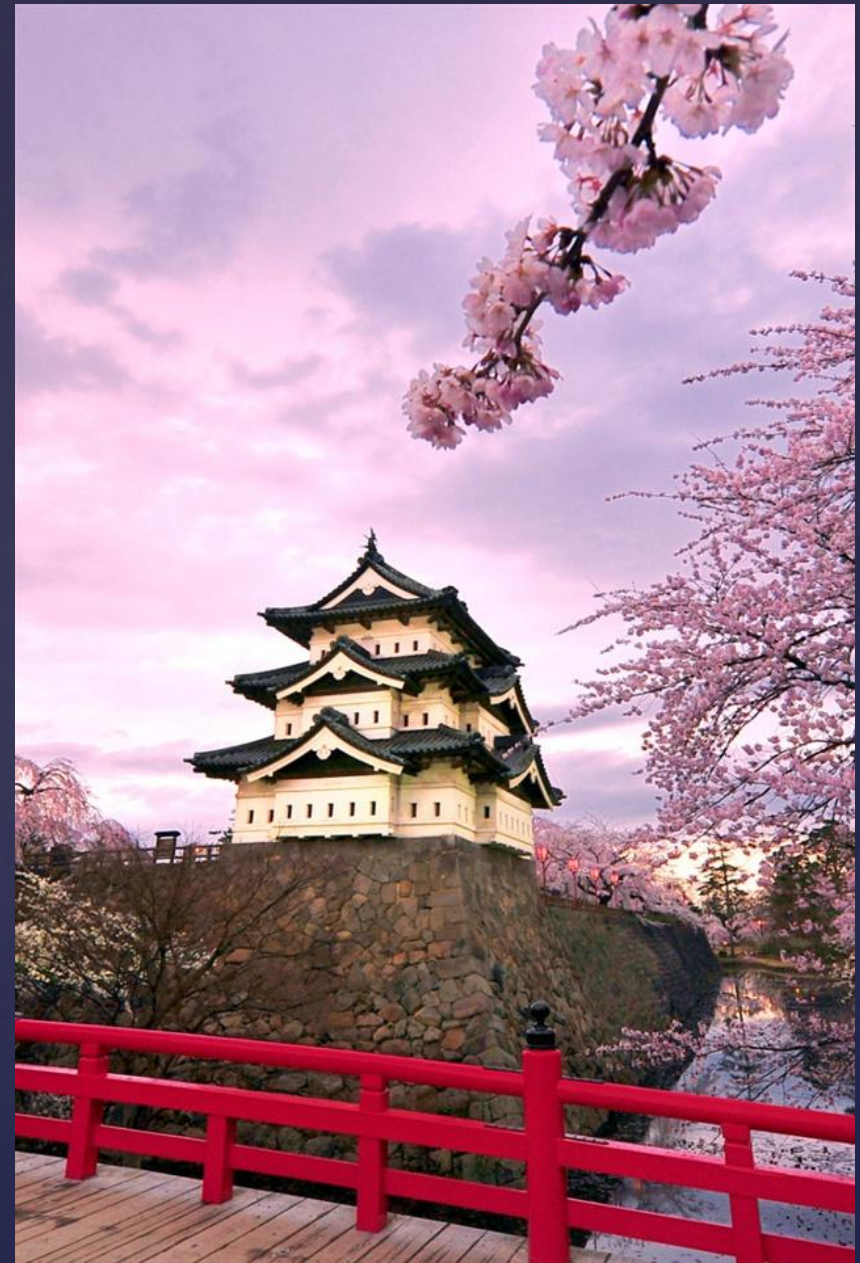

The history of Japan, its culture, traditions and social life surprised me a lot.

Japaneses could combine technological advance and centuries-old traditions.

I could see a very old building in traditional style next to a multistory skyscraper in a street.

I visited a lot of museums, galleries, historical places and monuments.

If you have a chance to go to Japan, you should take it!

Do you know the name of this place?

Disneyland

Empire State Building

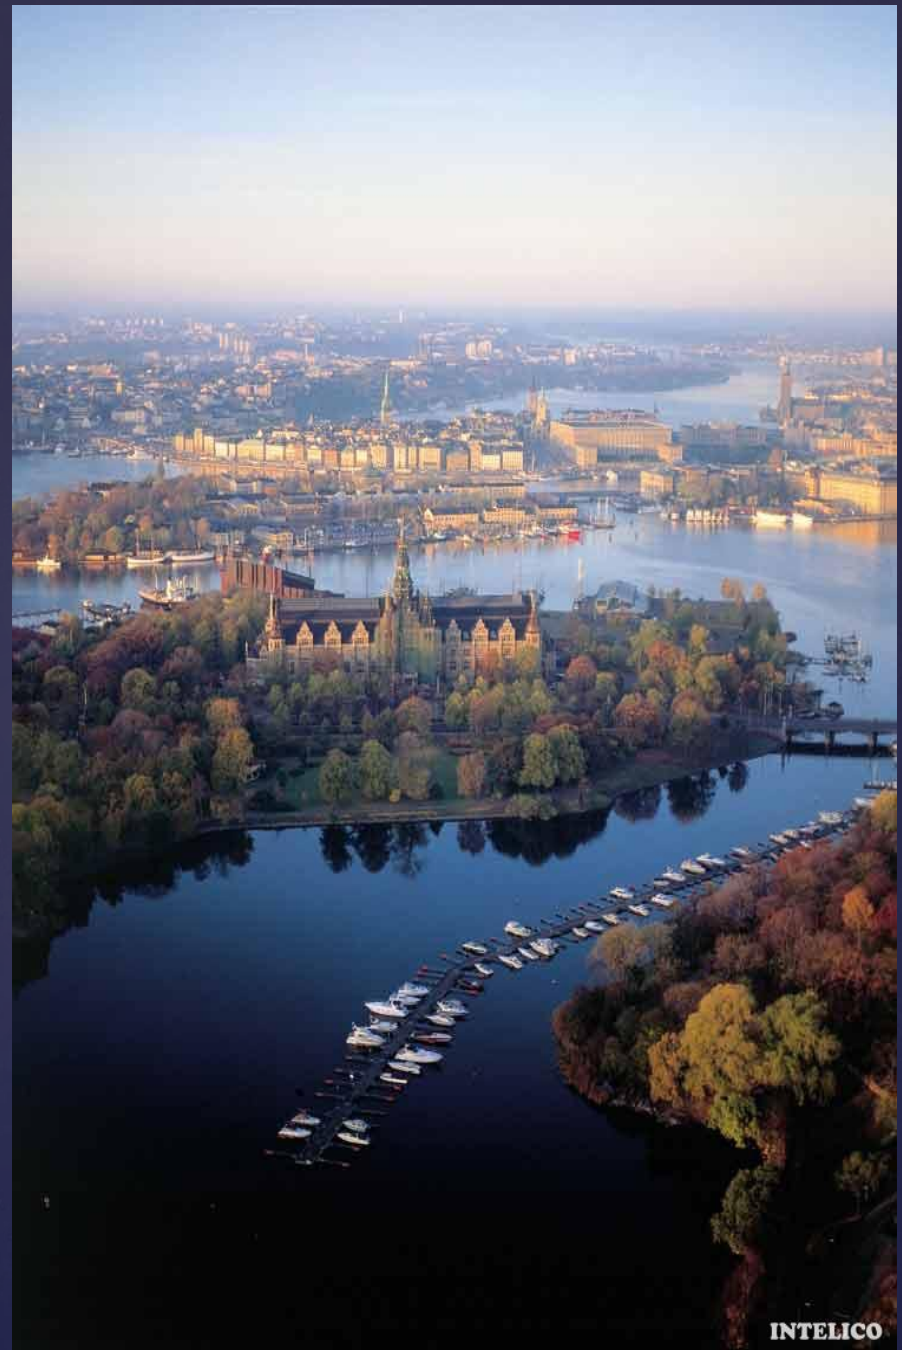

Eiffel Tower

Saint Augustine once said, “The world is a book, and those who do not travel, read only a page.” This summer I turned another page while visiting Sweden.

Every country has its own unique atmosphere. Sweden is distinguished by the atmosphere of specific slowness and sluggishness.

These were exactly my feelings I felt on the first day of my visit to Sweden.

Many cities of Sweden are located on the coast of the Baltic Sea. I was lucky to visit Kalmar and Karlskrona. There are many castles in Sweden. And of course, I visited the capital of Sweden – Stockholm. There are many bridges as the city is situated on 14 islands. Stars are especially beautiful in Sweden in winter; it seems that they can be taken by a hand. They are big and bright, which is typical of the Nordic countries.

Sweden is a wonderful country, especially for people who do not like hot climate and for those who want to have a rest after the bustle of large cities. I highly recommend a visit to Sweden, but you should keep in mind that the prices in Sweden differ significantly from ours.

What place would you like to visit? Why?
