WhatsApp

- ▶ WhatsApp is a popular free instant text messaging system for mobile and other platforms with voice and video support. Allows you to send text messages, images, video, audio and electronic documents over the Internet.

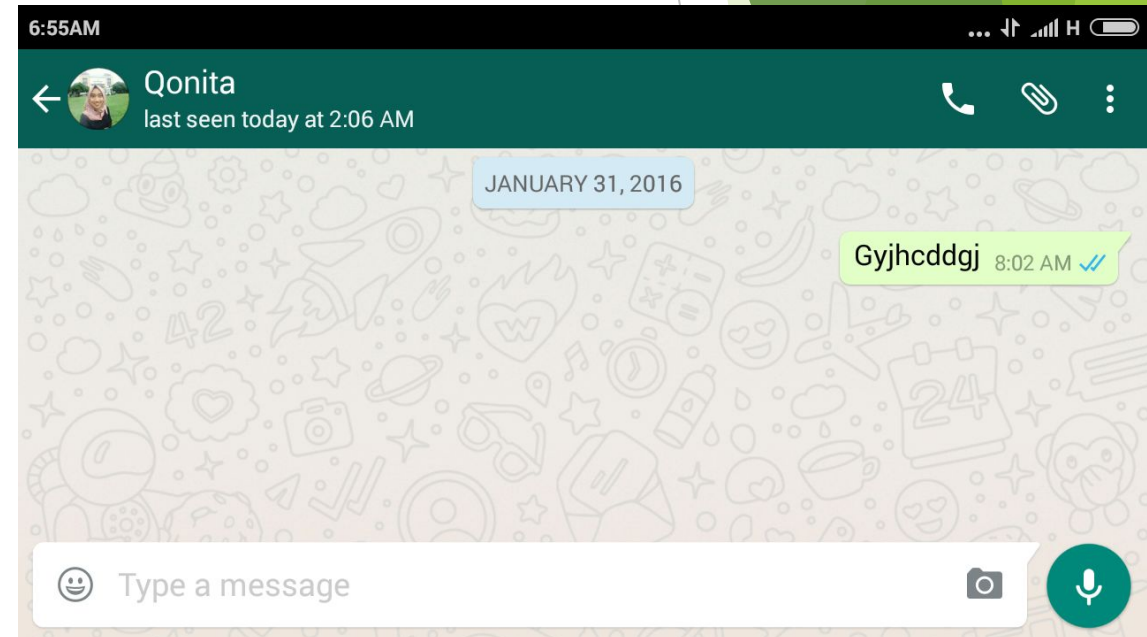

Opportunities

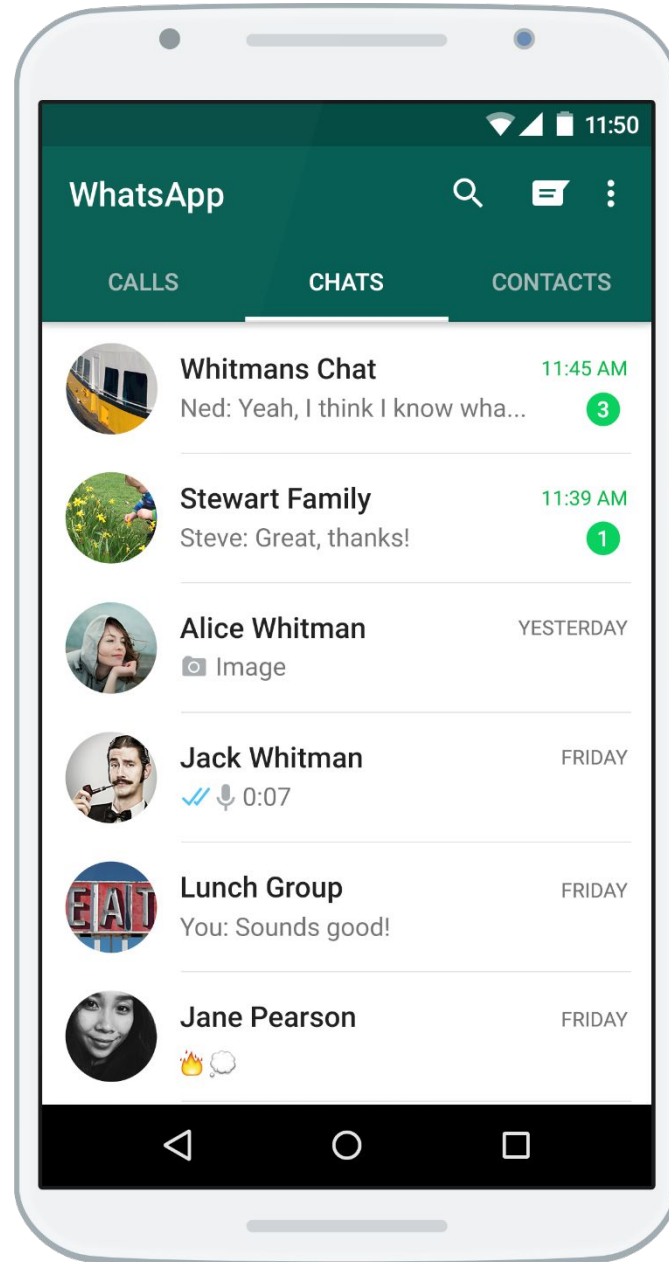

- 1- All properties of the application can be used for free for one year, then these services will be available for \$ 1;
- 2- Allows you to send videos and photos from the gallery of your mobile device directly from the gallery or from the camera;
- 3- Provides free communication between users of the program;
- 4- You may receive a notification offline;

Difference from other services

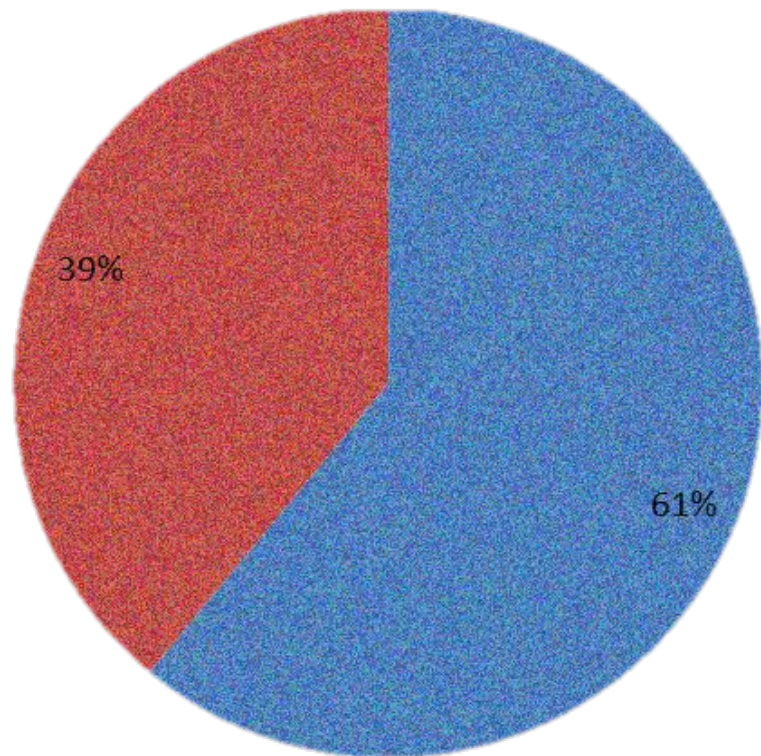

- ▶ supports many languages
- ▶ no ads
- ▶ Can send messages in text mode
- ▶ In the dialogue, you can choose the Wallpaper
- ▶ Full integration with phonebook contacts is made
- ▶ You can send messages to several recipients at once

User-friendly
