万事起头难

Basic Things

- At least one person should be more motivated than others for a long period. He or she should take all organizational work.
- Usually three persons is better than four. Two people is enough for the lesson.
- Sometimes the lesson is not prepared or someone doesn't come. Need to have plan for it, so the time won't be useless.

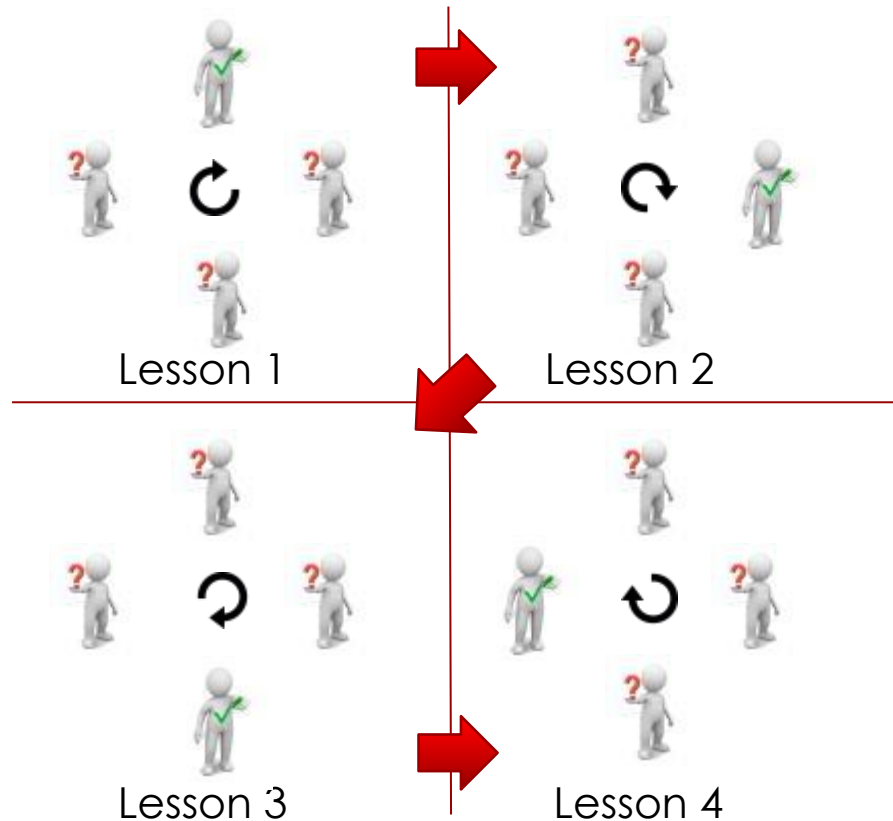

Basic Things

- We use Skype for calls and chat, cloud storage for materials (lessons learned, textbooks, links, video, audio and etc.). Need a good education program and materials.
- Sometimes we reschedule a lesson if needed. Please don't forget about time difference of the participants.
- If someone is out from the group it's not a problem – there are lots of people who want to learn more. Please add them if needed.

Ideal Picture

Native Speakers

- To get the best pronunciation native speaker must help. And this is the moment when collaboration with Chinese groups who learn Russian must take place.
- One time in one or two weeks one of the team members from each side takes a place in other group.

Future

- Language is just the beginning. The idea is much more universal.

Some thoughts from me:

- Social networks are dying. Films are less and less interesting. This routine is useless. The real life, the real achievements, the real relations – that matters.
- Everybody wants to speak many languages or to create their own business. Start build it now, without money but with friends.

別擔心，
你不知道 - 怕，
不要學。

This is the last slide of this presentation.

BUT IT'S JUST THE BEGINNING OF SOMETHING MORE
