land and property relations 1\9

WHAT IS EDUCATION?

Education is a single purposeful process of education and training, as well as a set of acquired knowledge, skills, values, experience and competencies.

WHAT IS INCLUDED IN THE TRAINING?

- Federal state educational standards and Federal state requirements, educational standards, educational programs of various types, levels and (or) orientation;
- Organizations engaged in educational activities, teaching staff, students and parents (legal representatives) of underage students;
- Of the Federal state bodies and bodies of state power of subjects of the Russian Federation exercising the state control in the sphere of education, and local governments exercising administration in the sphere of education, created the Advisory, consultative and other bodies;
- Organizations engaged in educational activities, assessment of the quality of education;
- Associations of legal entities, employers and their associations, public associations operating in the field of education.

FORM OF EDUCATION

Informal

for example, evening general education courses or schools

Formal

is a long-term program or short-term course

INFORMAL EDUCATION

- This process of obtaining new knowledge often takes place outside the specialized educational space, while there are specific goals, methods and techniques, and most importantly, the result of training. Can be carried out by educational or public organizations, various clubs and clubs, sections, when training with a teacher or coach individually, and is a variety of trainings, courses, seminars, round tables, which are accompanied by the issuance of a document confirming additional training — certificate of participant, diploma of advanced training, certificate.

FORMAL EDUCATION

- This learning process takes place in a well-organized and hierarchically ordered context, culminating in the issuance of a state-recognized form-a diploma of primary / secondary vocational or higher education or a school-leaving certificate. This process has a certain duration for various programs based on state curricula and state standards of education, which are organized mainly by formal, registered organizations.

DIFFERENT TYPES OF FORMAL EDUCATION

- Training video-film
- ICT in the project activities
- Technology inverted clas`s
- Remote educational technologies
- Social Internet in education
- Web quest as educational technology

GENERAL EDUCATION AIMS

- General education is designed to ensure that students master the basic forms of social activities that will ensure the adaptation of students to further education and life. In this regard, one of the main objectives of the school is the formation of students in the learning skills and cognitive activity, the formation of methodological culture.

PROFESSIONAL EDUCATION

- This is the training of specialists of primary, secondary and higher qualification to work in a certain field of activity. Like general education, P. O. focuses on the development of the individual; a specific goal is the adaptation of students to the peculiarities of the chosen sphere of work for the realization of the abilities and interests of each individual.
