

# DMITRIY KULIK

## Education:

- Nesvizh gymnasium (1 – 9 Form)
- Minsk State Regional Lyceum (9 – 11 Form)
- Student of BSU  
(Faculty of applied mathematics and computer science, 1)

## Achievements:

- Finished the course of preparation for the republican Olympiad
- Took part in the Republican Olympiad in Informatics

## Strengths

- Good communication skills (While studying at the Lyceum, I lived in a dormitory with other students. I learned a lot, the main treasure is the skills of correct communication, persuasion and finding compromises)
- I am able to find interest even in the most boring works
- I have a great desire to develop

# WHERE DO YOU SEE YOURSELF IN THE FUTURE?

I plan to do various technical developments. Consequently, I have to engage in such activities in a country in which this area is developed. Such countries can be the USA, China, Japan... But I am a supporter of the idea that humanity should work together and not be divided into countries, coalitions and fight against each other; Therefore, in this case, the location is not so important, because you have to cooperate with different countries.

# WHAT DO YOU WANT TO ACHIEVE IN LIFE?

- As I mentioned earlier, I want to engage in the development of technical means. Realization of all these problems should improve people's lives, solve some very complex problem, keep people live and healthy. I consider this a very strong achievement!

# THANKS FOR ATTENTION!!!
