

The background features abstract, overlapping geometric shapes in various shades of green, ranging from light lime to dark forest green. The shapes are primarily triangles and polygons, creating a dynamic, layered effect. The overall composition is clean and modern, with the text centered in the white space.

My future profession

Geoinformatics

Required skills

- ▶ the ability to perform field topographic and geodetic works
- ▶ the ability to design with the classic and digital technologies geographical, thematic and navigation map
- ▶ the ability to create geographic information system; skills in cartographic and geodesic support for large engineering projects (gas and oil pipelines, industrial construction)
- ▶ the skills to perform cadastral surveys.

Future career

- ▶ in the design institutes associated with the development and creation of a variety of maps and geoinformation systems
- ▶ in government and commercial cartographic agencies
- ▶ in geodetic companies performing cadastral work
- ▶ in innovative companies, architectural and construction companies.

What character traits needed for this profession?

- ▶ Attentive
- ▶ Communication
- ▶ Tolerance
- ▶ Flexibility
- ▶ Hardworking

The End
