

The background features abstract, overlapping geometric shapes in various shades of green, ranging from light lime to dark forest green. These shapes are primarily located on the left and right sides of the frame, creating a modern, dynamic feel. The central area is white, providing a clean space for the text.

My future profession

Geoinformatics

Required skills

- ▶ the ability to perform field topographic and geodetic works
- ▶ the ability to design with the classic and digital technologies geographical, thematic and navigation map
- ▶ the ability to create geographic information system; skills in cartographic and geodesic support for large engineering projects (gas and oil pipelines, industrial construction)
- ▶ the skills to perform cadastral surveys.

Future career

- ▶ in the design institutes associated with the development and creation of a variety of maps and geoinformation systems
- ▶ in government and commercial cartographic agencies
- ▶ in geodetic companies performing cadastral work
- ▶ in innovative companies, architectural and construction companies.

What character traits needed for this profession?

- ▶ Attentive
- ▶ Communication
- ▶ Tolerance
- ▶ Flexibility
- ▶ Hardworking

The End
