My future profession

# Who we are?

What I would like to be? This question passes me greatly. Every job has its elements of difficulties and interest. I think that nearly all the professions are very important in life. But to choose the right occupation is very difficult, because we must take in to consideration many factors. We must consider our personal taste and our kind of mind. As far as I want to stay military man. I suppose, that without this profession our country couldn't reach high level in the field of protection.

The Security Service of Ukraine (Sluzhba Bespeky Ukrayiny, or SBU) is a law enforcement agency responsible for protecting the state security of Ukraine.

# Missions and goals

It is responsible for state security (including secret police tasks), external security and non-military intelligence, counterintelligence, "crimes against state and people" (counter-terrorism, smuggling, weapons trade, ect), as well as the personal security of the President, the Verkhovna Rada (Parliament), and other officials and institutions.

On September 20, 1991, by adopting the Regulation "On Establishment of the National Security Service of Ukraine," the Verkhovna Rada of Ukraine (Ukraine's Parliament) liquidated the State Security Committee of the Soviet Socialist Republic of Ukraine (Ukrainian KGB).

Counterintelligence has always been and remains SSU's mainstream activity. The SSU does not employ the principle of "total" counterintelligence search. Differentiated approach to the organization of counteraction to specific foreign special services is being introduced instead.

In 1992, the SBU uncovered and stopped the espionage activities of G. Sarkisian, a stateless person, and A. Tkachenko, a Ukrainian citizen, who collected information on modern anti-aircraft missiles, fulfilling the tasks of a foreign intelligence service in this country.
