IN HARMONY WITH OTHERS

HOW TO LIVE IN HARMONY WITH OTHERS?

1.Listen to other people when they talk to you. Do not drift off or try to think of what you are going say in response. You will be surprised how much people appreciate someone who is really listening without judging or arguing.

2. Talk about non-controversial topics with people. There are certain topics like religion and politics that can send another person into a diatribe at the drop of a hat. It is best to talk about movies, the weather or anything that does not lead to a confrontation.

3. Set proper boundaries with people in your life. Let them understand that there are certain conversation topics and actions that you do not condone. It is up to you to set the boundaries and make people adhere to them. However, do not be confrontational or argumentative about setting them.

Some people just cannot get along no matter what measure you take to make a relationship work. So just stay out of these people's way and let them live their own lives apart from you.

RESPECT FOR OTHERS BRINGS PEACE AND HARMONY

Hatred and conflict are often rooted in differences between people of different races and religions. We all need to respect people of different races as well as people of different faiths and religions. We need to unite by recognizing our common desire and need for a harmonious society—a society in which we and our children and families and friends and communities can all live our lives in peace and harmony. Regardless of our race or religion, we all want and need such social harmony.

Without respect for people of different races or ethnicities or religions, how can we have a peaceful and harmonious society or world? And without a harmonious society, how can there be the necessary economic development and atmosphere conducive to spiritual happiness and self-realization?

FOR YOU.)))) LET'S LIVE IN HARMONY!
