The Text

People cannot live without music. They can listen to music everywhere even in the forest, when they walk and hear birds singing. Music can be classical and modern.

Classical music is performed by symphonic orchestras in the great halls. There are a lot of famous composers whose music is played nowadays. Classical music is serious and requires good understanding that's why it may seem to be boring and dull for some.

Most people prefer modern music. Modern music is performed by TV and radio. Modern music has different kinds: pop, rock, disco, rap, techno and others. Most young people like dance and pop. Older people are fond of jazz, rock and pop. There are a lot of singers or music bands who perform this or that kind of music. Now there are a lot of discs and records of different performers.

The last achievement in music production is a clip. Musical clips are short films accompanied by the melody. It may be a short story what the song is about or simply a great number of different pictures. People like to watch clips because it's not only listening to music but also watching interesting things. I'm fond of music and like to listen to it because it helps me to have good relaxation.

My favorite singer is Britney Spears. She is not only a good singer but she is also a good actress. In each of her songs she is different and each time she has different images.

Britney Jean Spears was born on December 2, 1981 and spent her childhood in Kentwood, Louisiana. From her early years she was a very active and talented girl. Britney's first single was released in 1998. It was called "Baby one more time". It became very popular and Britney was called the pop princess.

In 1999 she was in the list of the 50 most beautiful people in the world. Spears worked a lot. She acted in a movies “Crossroads”, «How I met your mother» and in some others.

In 2004 she got married and gave a birth to two boys. In 2007 she got a divorce. She was in a bad depression at that time. But she found strength to continue her carrier on the stage. She keeps working and showing us her talent. She released 7 albums. And all of them were hits. I like many songs by Britney.
