Июнь 2020

In June

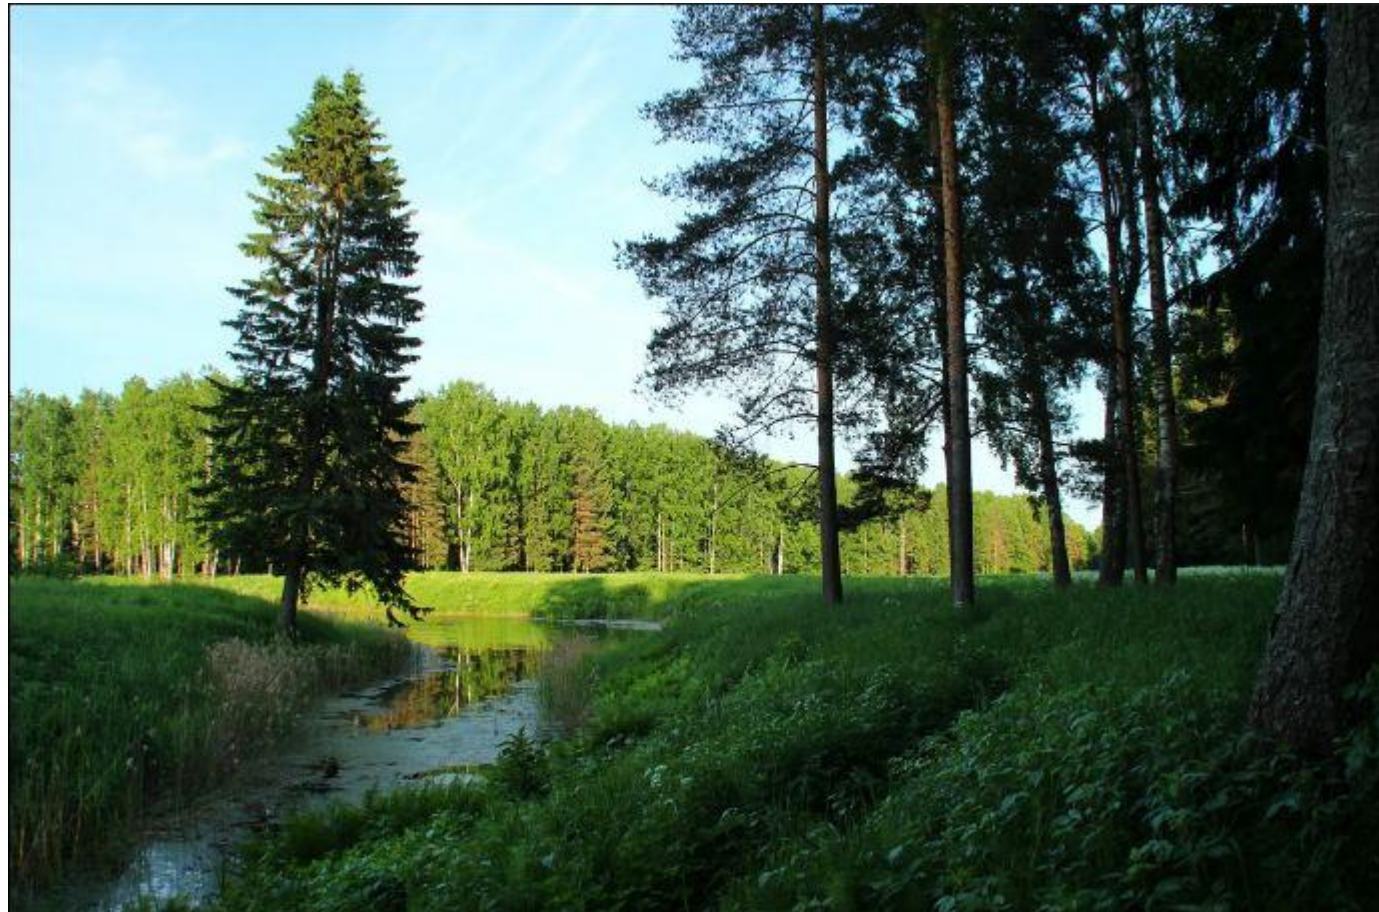

I will go to village.
My grandparents live in the
countryside near my city.
Every summer me and my
brother visit our
grandparents.

We like go fishing
together.
There are different fish
in the river Volga.
We catch sturgeon
crucian, carp, roach,
bream, pike, minnows
and catfish.

In the morning we go
to the forest. There is
a fresh air here.
We like hiking in the
forest with our
grandparents.
There are many trees
in the forest : fir trees,
pines, and birches.

Next to
mixed
forest
there is a
long birch
grove

There are many
flowers in the
meadow near our
village.

Dandelions, daisies,
clovers.

We work in the garden and help our grandparents.
We grow potatoes, carrots, cabbages and cucumbers in the garden for eating.
It is very delicious to eat self-grown vegetables.

Thank you for
watching
