Speaking

WHY DO PEOPLE TRAVEL?

People like to travel **alone**
with friends
with parents
with a dog
with grandparents

Usually they travel on business
for pleasure
in search of advantages
out of curiosity
to see the beauty of the world

When they travel they like to go shopping
meet new people
make new friends
go sightseeing
learn about traditions of their countries

Because travelling is exciting
useful
fascinating
enjoyable
good for health

But sometimes it can be disappointing
expensive
dangerous
troublesome
tiring

Travelling broadens our outlook
gives us life experience
leaves unforgettable impressions
helps us explore the world
allows us to understand other people better

Travelling is very popular nowadays. Go to a railway station, a port or an airport in this country or abroad and you will see hundreds of people who want to go somewhere and to get there as quickly as possible.

The fastest way of travelling is by plane. With a modern airliner you can travel in one hour to a place which takes a day to travel by train.

Travelling by train is slower than by plane, but it nevertheless has its advantages. You can see the country you are travelling through and not only the clouds as you are flying. There are sleepers and dining-cars in passenger trains which make even the longest journey enjoyable. Some people like to travel by ship and enjoy a sea voyage or a river trip.

Many people like to travel by car. Travelling by car also has its advantages: you will never miss your train, ship or plane; you can make your own time-table; you can stop wherever you wish. Travelling by car is popular for pleasure trips while people usually take a train or a plane when they are travelling on business.

Travelling means getting about town too. There are many ways of getting about town. You may use tram, bus and trolley-bus routes, taxi service or the Metro. Trams, trolley-buses and buses stop to pick up passengers at special stops. Sometimes the tram, bus or trolley-bus you are on do not take you right to the place you want to go. In this case you have to take another tram, bus or trolley-bus. It means you have to change trams, buses or trolley-buses. In the Metro we often have to change for other lines.
