My favorite activity is water skiing. You need the following equipment to water ski: water skis, a life Jacket, bindings, water ski ropes, water ski tubes and, of course, a boat and a large area of water. To water ski you must remember to relax, breathe slowly and don't panic! Team work is essential. You must be able to communicate effectively with the boat driver and the observer. I like this sport because it is exciting and a good way to get rid of stress. You can enjoy a day out with your friends and family.
