By Dolgikh Sergey

Learning a foreign language isn't an easy thing. Nowadays it's especially important to know foreign languages.

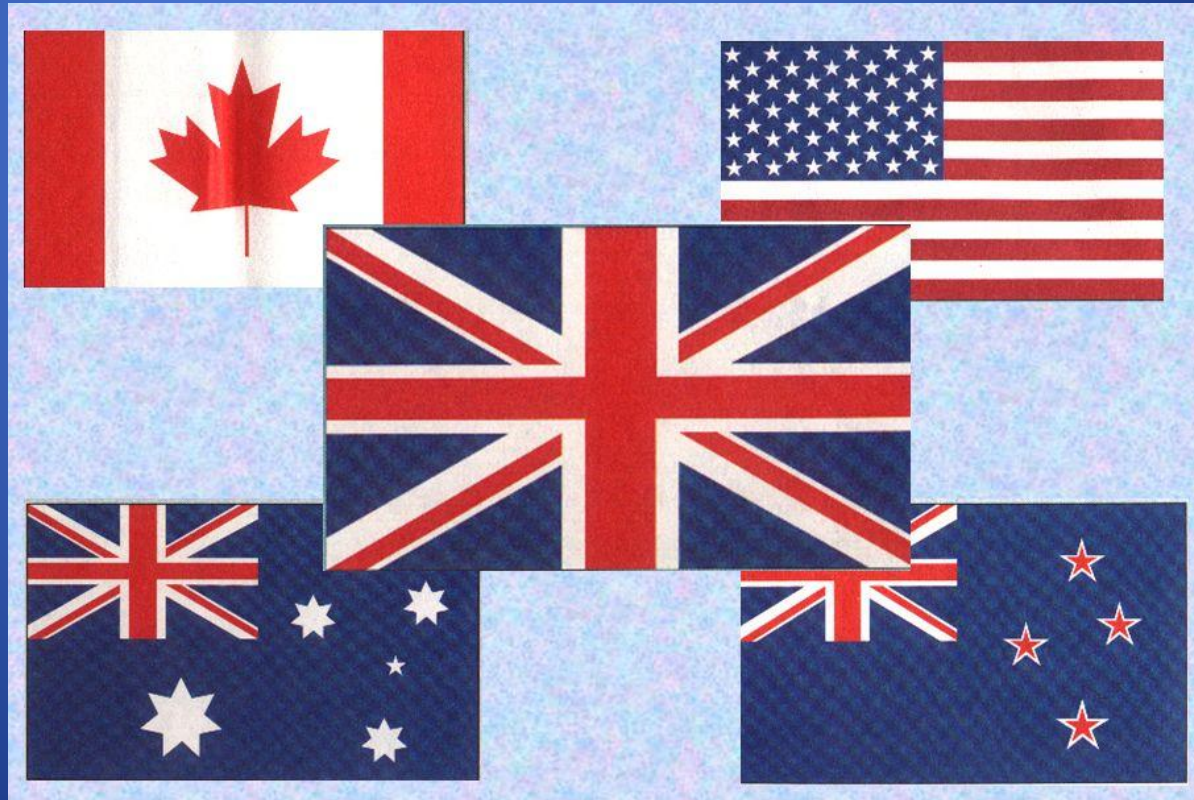

Some people learn languages because they need them for their work, others to travel abroad, for the third studying foreign languages is a hobby.

Everyone, who knows foreign languages can speak to people from other countries, read foreign authors in the original.

I study English. It's a long and slow process that takes a lot of time and efforts.

The native speakers of English live in Great Britain, the United States of America, Canada, Australia and New Zealand. English is a international language.

English language is important language. It's the language of the great literature. Also half of the world's scientific literature is in English. It's the language of computers technology.

I think that to know English today is absolutely necessary for every educated man, for every good specialist.
