# METABISCUIT

YOUR GAME IS ABOUT TO BECOME A GAME

Why are your viewers just watching? Why not give them their own game

- \* More engaging stream
- \* More excited viewers
- \* More revenue opportunities

“OMG Metabiscuit is a whole new thing for streaming”

# HOW IT WORKS?

1. You assign a Mod to run the game
2. Your mod creates instant bets during your stream on what's about to happen.
3. Players predict the action and wager their points on their guess

# Have your viewers wanting to come back for more

dosssssssss: This proxy is making me nervous

✓ 🎮 Phreo: meh he has spin and ult

dosssssssss: Omg this metabiscuit is a whole new thing for streaming

dosssssssss: i am hooked

secretagentOrange: btw super creative idea for metabiscuit as a whole. Love playing it, good luck!

# The Benefits:

Increases average viewer retention time

- \* viewers are actively invested in your stream

Differentiates your stream from the rest

- \* Players go to the streams that have “side action” in them

A new revenue opportunity

- \* revenue share w/ Metabiscuit advertising
