

my future profession teacher

student 211 d group

Sasha Boldarieva

My future profession is teacher.

I like children, their sincerity,
spontaneity and curiosity.

When in the morning, mom and dad escape to work hastily swept the kid at the door of the garden, he feels abandoned.

The teacher gently takes his hand, patting on the back, soak their aromatic watery eyes, a kerchief, and takes him to the group to the rest of the children.

The child, sobbing, smiling, and is included in the game.

He trusted educator and admits it in his
little heart.

This precious baby, trust can be earned
only human kindness, sincerity,
patience and boundless love

Thank you for your attention
