# Contents of my portfolio

# Hello! Nice to meet you!

Fair is my hair,  
Brown are my eyes.  
I'm 10 years old,  
I'm just the right size.  
My name is Angelina,  
And as you can see,  
I'm very happy to be me!

The name Angelina is a Greek name. In Greek the meaning of the name Angelina is angel. People with this name are kind, romantic and generous. ( I think, it is true). They choose professions where they can serve people. Can you guess what I want to be when I grow up? You will find the answer soon ☺

Let me introduce my family to you! My family isn't large, I have a mother and an elder sister.

My mother's name is Elena.

**This is my mother**

My mother is special, she's  
more than a friend.

Whenever I need her, she'll  
give me a hand.

She'll lead me and guide me  
in all that I do.

Try all that she can just to see  
me get through.

**This is my sister**

My sister's name is Marya.

*My sister is there,*

*When no one else will.*

*If I make mistakes,*

*She loves me still.*

*She cheers me up,*

*When I wear a frown.*

*She makes me happy,*

*When I'm feeling down.*

*My sister I can count on,*

*Each and every day.*

# My school and my friends

**My classmates are my  
friends**

My school is cool  
And it is full  
Of many girls and boys,  
Who make much noise.  
We play all time  
And learn a rhyme,  
Or read a book,  
And sew and cook.  
We love school all  
And wait for fall  
To meet together here,  
To teach and study near.

# My hobby

My hobby is quilling. I use strips of paper, roll and shape them and decorate a design. It is very beautiful!

Another my hobby is reading. When it's rainy or cold I like to lie in bed and read a book. I like to read fairy-tales and try to read books in English.

# My achievements

When it's rainy or cold I like to draw. I like to draw nature and animals.  
My favourite colour is blue.

# Healthy way of life

I do my morning exercises

I eat fruit and vegetables

I walk in the open air

I go to bed early

# My plans for the future

I think you have guessed that I would like to become a doctor. I respect doctors because they treat people and help them. Also I would like to help animals like Doctor Aybolit when they are ill or when they have no home.
