

Dream the room

Beluch Alina 8B from

I dream of a cramped room ! To be sure there was a carpet and a large window . That there was a shelf with pictures . And on the wall to hang a poster with my favorite movie . That there was a shelf with pictures next to them lay my drawings . A desktop that was great. And all the books were placed in it.

To bed was on against the table , and the table was in the lower left corner of the door apart . To at the table was a window , and against his cabinet

I dream about a taoy room
