

1

Automate visual analysis at dataflow speed

- Industry's first contextual, video analysis platform supports multiple, simultaneous, video streams
- Accelerate understanding and response time with the industry's fastest image recognition: greater than 2,000 images/second
- Respond in real-time with latency below 7ms and small batch sizes

50 SIMULTANEOUS
VIDEO STREAMS

25 TIMES THE RECOGNIZED
OBJECTS PER SYSTEM VS.
GPUS

90 OVER 90% IMAGE
RECOGNITION ACCURACY
WITH <7ms LATENCY
