TEXT

My school

I'm in the 8th grade of grammar school.
Always happy to return to school the first of September.

I went to kindergarten, "Ruzicka".
There I received the first pre-school knowledge.

Primary education I received in school. Of course, school knowledge is more fundamental compared to the children's garden.

Secondary school enriching knowledge of life, nature and science. Gives good social skills.

Independent school deepens the already acquired knowledge in different subjects - mathematics, physics, chemistry, English and Ukrainian.

Boarding school is a special type of schools. In these schools children are taught not only the looks, but also live.

They learn about 14 items. Such as mathematics, physics, chemistry, English, Ukrainian, Informatics and so on

GOODBYE SCHOOL

THE END
