I'd like to compare and contrast these two photographs.

- ❖ give a brief description (action, location)

The common theme of these pictures is motorcycles. In the first picture I can see a motorcyclist on the road, who has stopped at the traffic lights. As for the second picture, it also shows two motorcyclists next to the entrance.

- ❖ say what the pictures have in common

On the one hand, these two photos have some similarities. As I have already mentioned, pictures illustrate motorcyclists with their motorbikes. They are somewhere in the street. That's where the similarities end.

► **say in what way the pictures are different**

On the other hand, in some ways the photos are really different. In the first one I can see one motorcyclist, it seems to me that he is looking at the traffic lights, waiting for a green light to continue moving, whereas, the second photo shows us two motorcyclists, who are waiting for somebody. One of them is on the motorcycle, while the other one is standing next to. Also, I can pay attention to their transports, in the second photo I can see motorcycles with sidecars, while in the first one, there is a simple motorbike.
