

Generation M

Dictionary says:

**“Generation Multitasking -
today's teenagers, who are GM,
do homework, watch TV and
listen to/download music all at
the same time.”**

The quotes:

“The irony of multitasking is that it's exhausting: when you're doing two or three things simultaneously, you use more energy than the sum of energy required to do each task independently. You're also cheating yourself because you're not doing anything excellently”

“Most of the time multi-tasking is an illusion. You think you are multitasking, but in reality you are actually wasting time switching from one task to another”
