“How my profession can change the world”

Moscow, 2016.

Design - it is a way of life and thinking. You can not be a designer on weekdays, and on weekends - an ordinary citizen.

Even thousands of years ago, when people still lived in caves, People strove to make their home more comfortable, beautiful. It was then that appears the first cave paintings.

There are very few interior designers among women. I would like to tell you about one of the most significant women figures in design. Her name is Greta.

This is the kitchen. That woman is carried out in the room a lot of time, came up with the idea to create a space that would facilitate the process of cooking.

There is a very good book "With the help of design." by a famous designer Ralph Caplan - about the world of things in which we live.

Design for bag of pasta. I really liked the idea. It once again shows the idea that all genius is simple.

Interesting packaging for biscuits.

Adhesive cloth for cleaning hard to reach areas. In this case, the performances not as important as the idea itself.

Some inventions still do not even have names. Nevertheless, they simplify our lives.

An abstract background with a textured, painterly appearance. The colors transition from a vibrant green on the left to a bright yellow in the upper right, and then to a warm orange and red in the lower right. The texture is visible, with brushstrokes and some darker, more saturated areas at the bottom.

**I believe that it is a good idea
to 50% of the project's success.**

**I believe that we can change
the world for the better!**

The background is an abstract, textured surface with a color gradient. It starts with a deep blue on the left, transitions through green and yellow in the upper right, and ends with a vibrant red and orange on the bottom right. The texture is rough and painterly, with visible brushstrokes and some darker, mottled areas.

Thank you for your attention!
