

State Autonomous Educational Institution of Secondary
Professional Education of the Republic of Crimea “Evpatoria
Medical College”

MY COLLEGE

Performed: Tolstik Pasha and Schur Angelina

Group: 1-5

Checked: Masson E.V

A close-up photograph of a doctor in a white lab coat with a stethoscope around their neck. The doctor is sitting at a desk, holding a silver pen in their right hand and writing on a white piece of paper. Their left hand is resting on the desk. The background is slightly blurred, showing a window with green foliage outside.

PLAN OF PRESENTATION:

1. History
2. Department
3. Location
4. Life in college
5. Lessons and working day

HISTORY

- ▶ The republican institution "Evpatoria Medical College" began its existence in 1953, as the Evpatoria Medical College. The college got its modern name in 2005. As then, and now, a medical college is aimed at preparing middle managers for medical institutions of the Republic of Crimea and the Russian Federation. Throughout its existence, a medical college has released thousands of qualified professionals from its walls. I do not want to brag, but after talking at TNU with colleagues, graduates of medical colleges of Ukraine, I can safely say that Yevpatoria provides the highest level of knowledge.

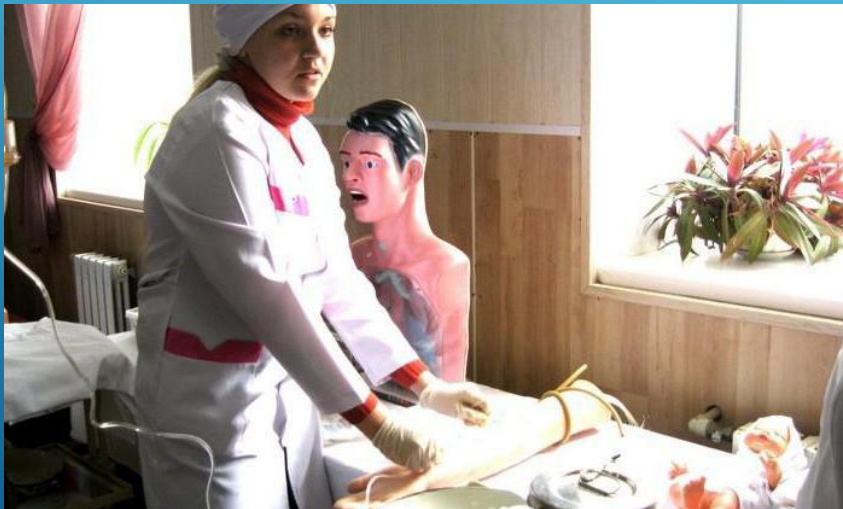

PHOTO OF OUR COLLEGE

DEPARTMENT

There are two areas of study in our college:

1. Laboratory diagnostics
2. Nursing

Laboratory diagnostics

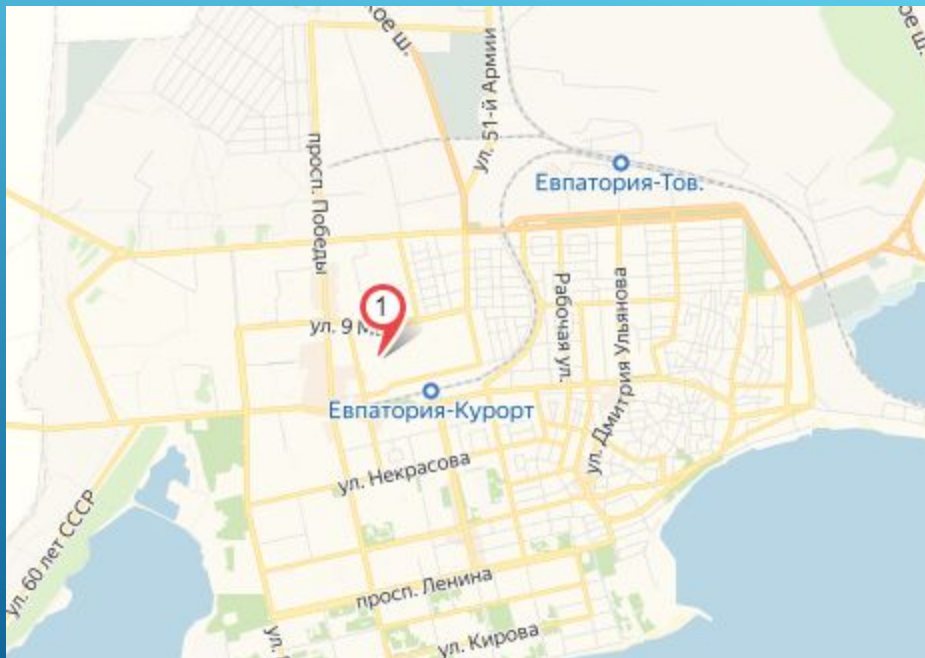

DEPARTMENT

► Nursing

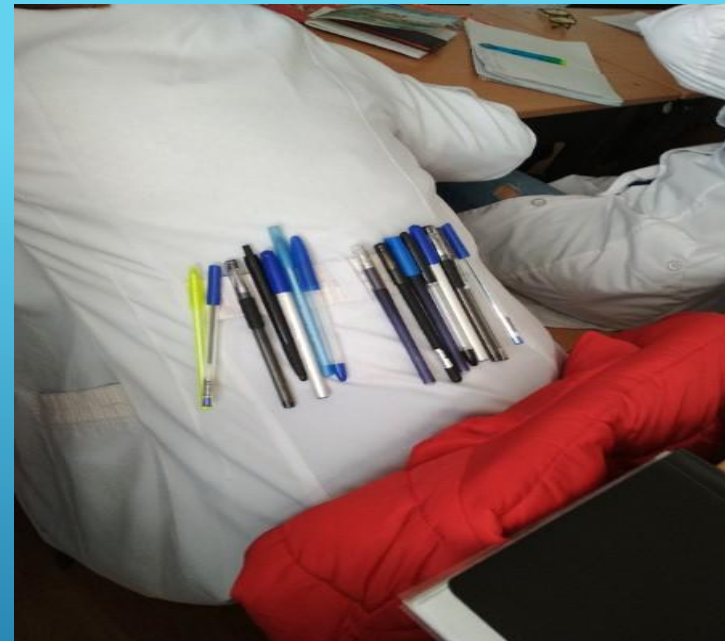

LOCATION

- The college is located in our wonderful city of Yevpatoriya on Krupskaya St., 52. If you first got into the city, then it will be quite difficult for you to find the building itself, since it is hidden behind the buildings of family dormitories. The college building itself is small, consists of 5 floors and stands obliquely compared to other buildings on the street (this is very clearly visible on the map).

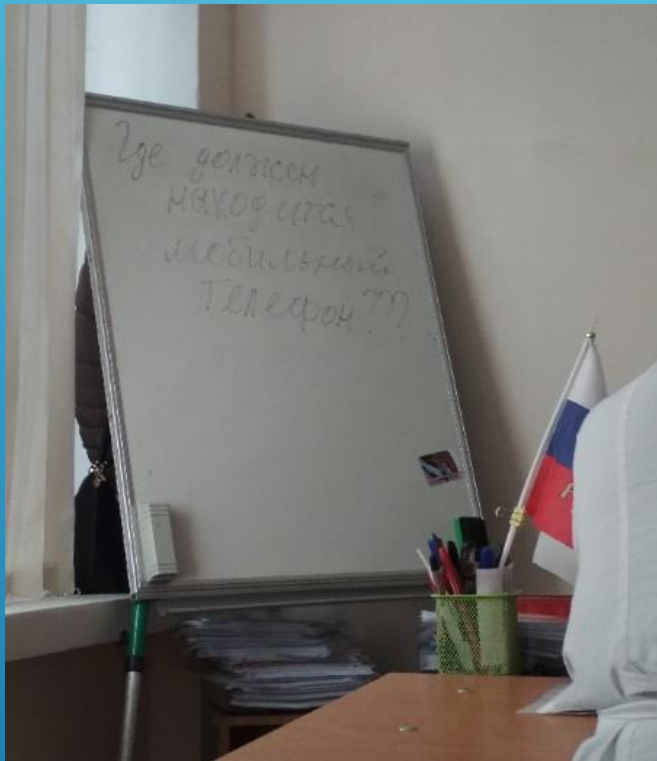

LIFE IN COLLEGE

- ▶ College life is in full swing every day. We learn, practice, learn on the go. There is no buffet in college, so we have to run to the nearest store. Teachers of the kindest soul are people, no matter how you go to school, but they always meet, some of them use the truth. Sometimes the group and I get out for a walk, the truth is this rarely happens.

LIFE IN COLLEGE
