

POSITIVE AND NEGATIVE PARTIES OF SOCIAL NETWORKS

VOLINTIR DMITRY

PLUSES:

Communication

Broadening of one's mind

Can be informed about the latest news and events

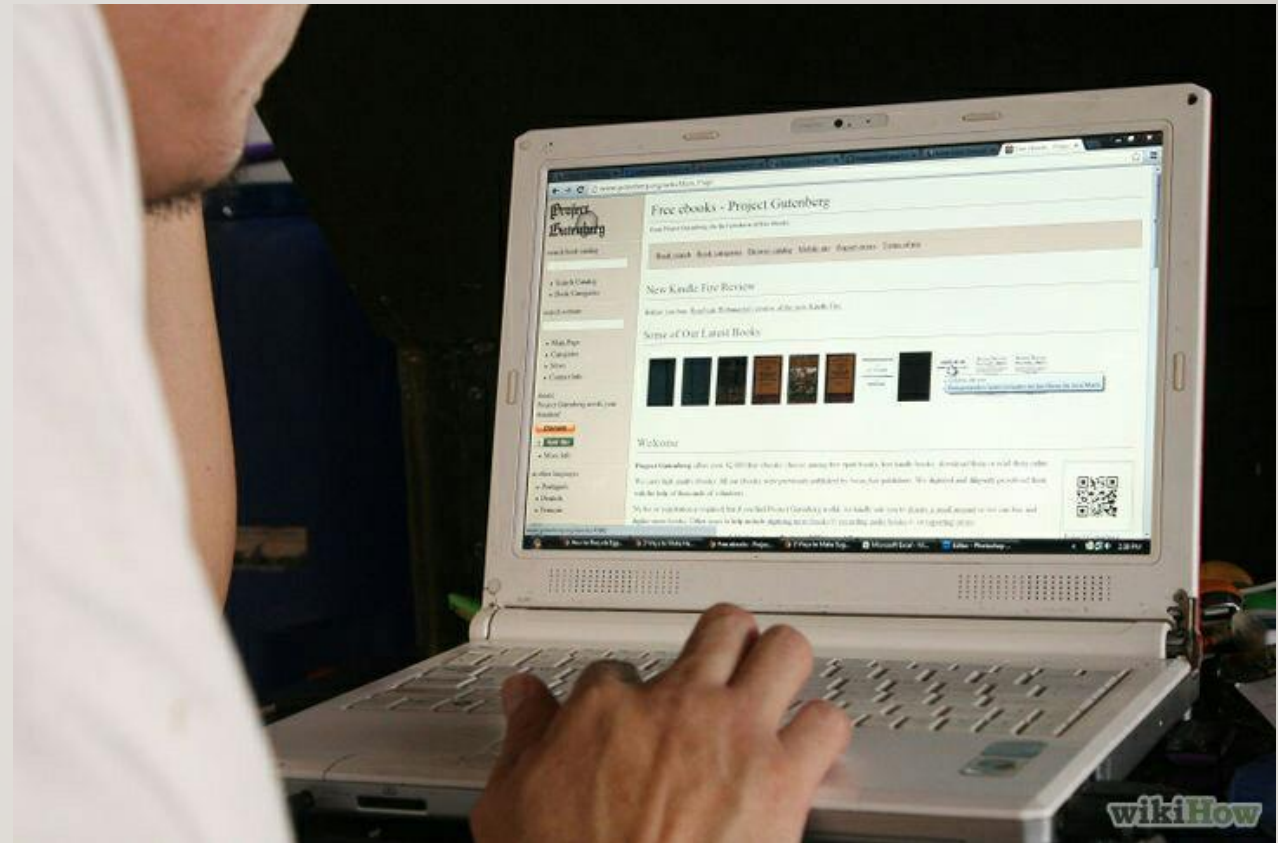

COMMUNICATION

This is virtual, but this is communication. You can communicate with friends, congratulate them with holidays, find old friends. With many people, with which you communicate in social networks, you would not communicate in a real life.

BROADENING OF ONE'S MIND

In social networks it's possible to find much useful and cognitive information. Music, video, films, books, you name it. It's possible quickly to find the information which is necessary you.

CAN BE INFORMED ABOUT THE LATEST NEWS AND EVENTS

For modern life it's important very much – to keep abreast news. Did not now something, was late. Social networks give us opportunity to read and to discuss all latest news and novelties in different domains.

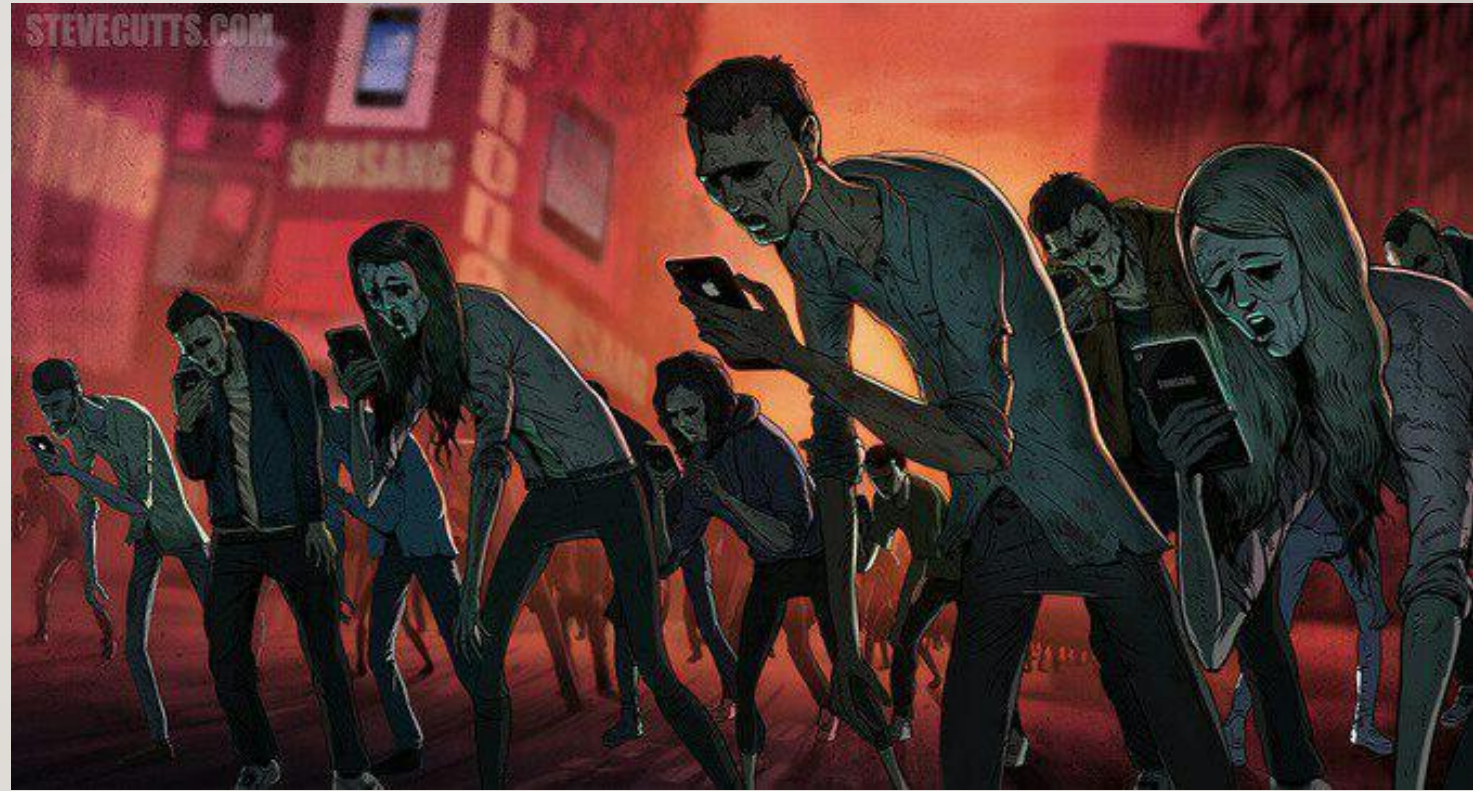

MINUSES:

- Dependence
 - Replacement of real communication virtual
 - Failure from real life
-

DEPENDENCE

It is the biggest negative consequence. You remember that from any dependence to get rid is difficult very much. All is very quick takes place. At first you were registered, added photos, found friends. All it is normal! Then you began more and more of the time to conduct in social networks, to add mass of photos, to read all news, to play to plays. And after a time, you cannot live without social networks. From the first to the last item it is possible to pass for month.

REPLACEMENT OF REAL COMMUNICATION VIRTUAL

The person should participate in the communications. It is his needs of nature. And virtual dialogue in social networks supersedes real. Simply there is no time on it. And what for to waste time and forces, to go somewhere, if it is possible to sit down computer?

VIRTUAL INTERACTIONS WITH PEOPLE AND PLACES
CAN BE AS GOOD AS BEING THERE IN PERSON

FAILURE FROM REAL LIFE

You are troubled only by what takes place in social networks. To you not interesting world around. He is too difficult, severe and ruthless. It is sometimes possible to go out from one's problems to virtual reality. But there it is impossible to live. All the same sometime you will meet with real world face to face. And unlikely this meeting will be joyful.

THANK YOU FOR ATTENTION!
