Tax sistem of Rus

Unable to pay taxes are the stones?

The Russian tax system is relatively new. The tax year in

Russia is the calendar year. Different fiscal year-ends are not Permitted.

There are a number of significant taxes in Russia charged in relation to sales and property, and taxes specific to certain industries or activities (gaming/gambling, for example).

There is a simplified system of taxation established for small enterprises, which may pay a unified tax on income and a reduce number of other taxes. Regional authorities have the right to introduce a tax on imputed income within their jurisdictions for legal entities and individual businessmen carrying out activities in certain industries.

Enterprises, farms and individual businessmen producing agricultural products have to pay a unified agricultural tax instead of most other taxes if this activity represents at least 70% of total revenues for a certain period.

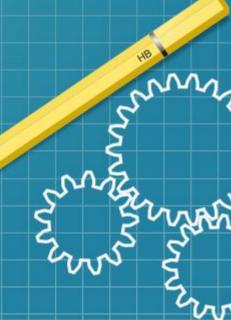

Taxes, duties and fees are enacted by law and may be changed only by new legislation. The Federal Tax Service, which is responsible for collecting taxes, closely coordinates its activities with the Ministry of Finance, which has overall responsibility for collection of Russia state budget revenues. Also the Federal Tax Service coordinates with law enforcement bodies, in particular, with the Federal Agency for Economic and Tax Crimes under the Ministry of Internal Affairs. The Federal Agency, which replaced the Tax police, is responsible for uncovering tax violations and investigating cases of gross tax evasion, which is criminal offence under Russian law. The Federal Agency is a powerful tool for tax administration. Gross tax evasion is defined by the Russian Criminal Code as underpayment of taxes.

Companies are required to file reports with the tax authorities on a monthly, quarterly or annual basis, depending on the particular tax and the company's line of business.

Taxes are paid in monthly, quarterly or annual installments, and a final adjustment made when annual tax returns are submitted.

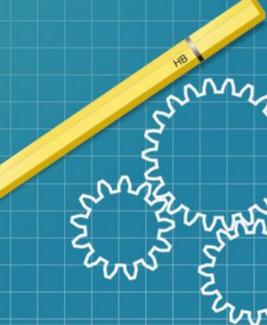

The tax authorities do not issue

tax assessments to enterprises. Instead, the company must pay the amount of tax indicated in the tax return.
