THE MOTTO OF THE LESSON

- WE ARE ALL TOGETHER IN THIS FRAGILE AND GLORIOUS WORLD

THE ENVIRONMENT

- The environment means what is around us.
The most serious environmental problems are:
- Water pollution, air pollution, nuclear pollution
- Noise from buses, cars, planes
- Destruction of wildlife and countryside beauty
- Shortage of natural resources
- The growth of population.

Here are our problems:

➤ *Littering*

➤ *Air pollution*

➤ *Water pollution*

➤ *Endangered species*

➤ *Destruction of natural resources*

THE SIBERIAN TIGER

- The Siberian tiger is also known as the Amour tiger, Manchurian tiger. It is written in the Red book.

- In 1996 there were about 450 tigers.

- The Siberian tiger is a big animal, it has exotic color, it is one of the biggest beasts of prey of our planet.
- It's length is about 8m
- It's mass is about 350 kg
- It runs at a speed of 50 km/h

It is a very beautiful and dangerous animal.

DON'T KILL US

■ What must we do?

There are many organizations which protect our environment. Nowadays people understand how important to solve the environmental problems that endanger people lives.

GREENPEACE

Introduction part

Greenpeace is an international non-governmental organization for the protection and security of the environment. Greenpeace is a global environmental organization that consists of Greenpeace International (Stichting Greenpeace Council) in Amsterdam.

SAVE THE WORLD

OUR MISSION

What must we do?

- Walk or use a bicycle instead of going by car.
- Do not litter with paper, cans or bottles.
- Recycle used materials such as metal, bottles and paper.
- Plant more trees.
- Feed birds in winter and help them survive in the cold.
- Save energy. Use less electricity and gas. Turn off the lights when you leave a room.
- Clear rubbish from lakes and rivers.
- Have showers, not bath. Showers use less water.

MATCH THE PARTS OF THE SENTENCES

If I sort my rubbish,

If I reuse my old
exercise books,

If I don't wear a fur
coat,

If I always turn water
off,

- I can save the environment.
- I can save the oceans, seas and rivers
- I can save the forests
- I can save the animals
