

DENTAL FACULTY

Epishina Anzhelika

Scientific adviser Titova Z.V.

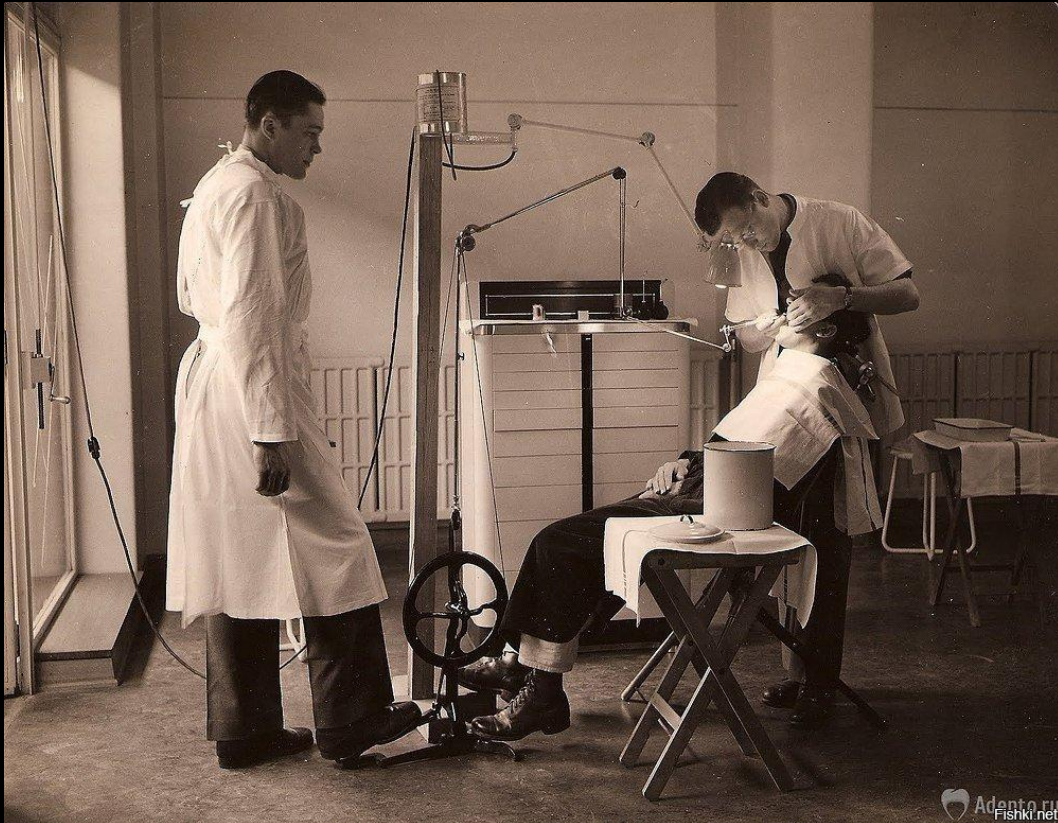

DENTISTRY TODAY

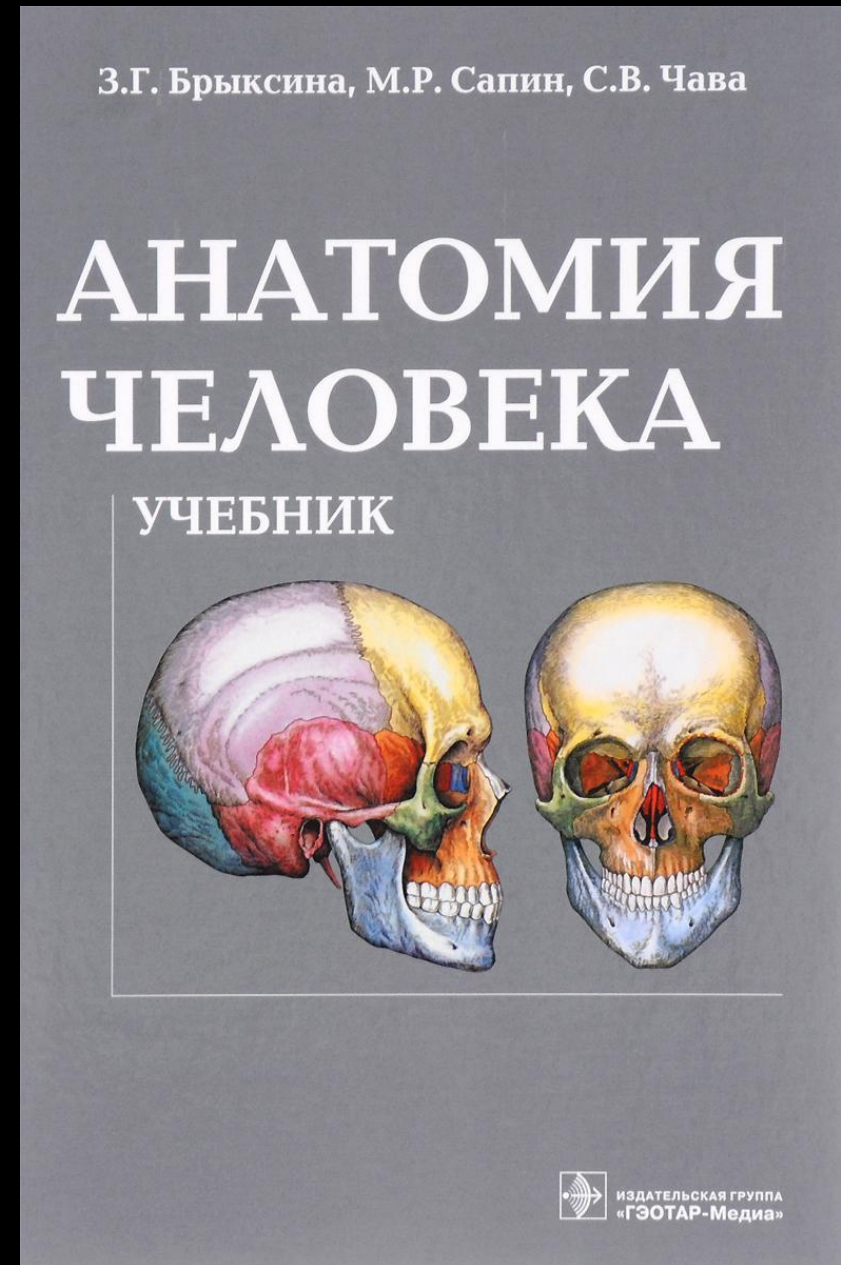

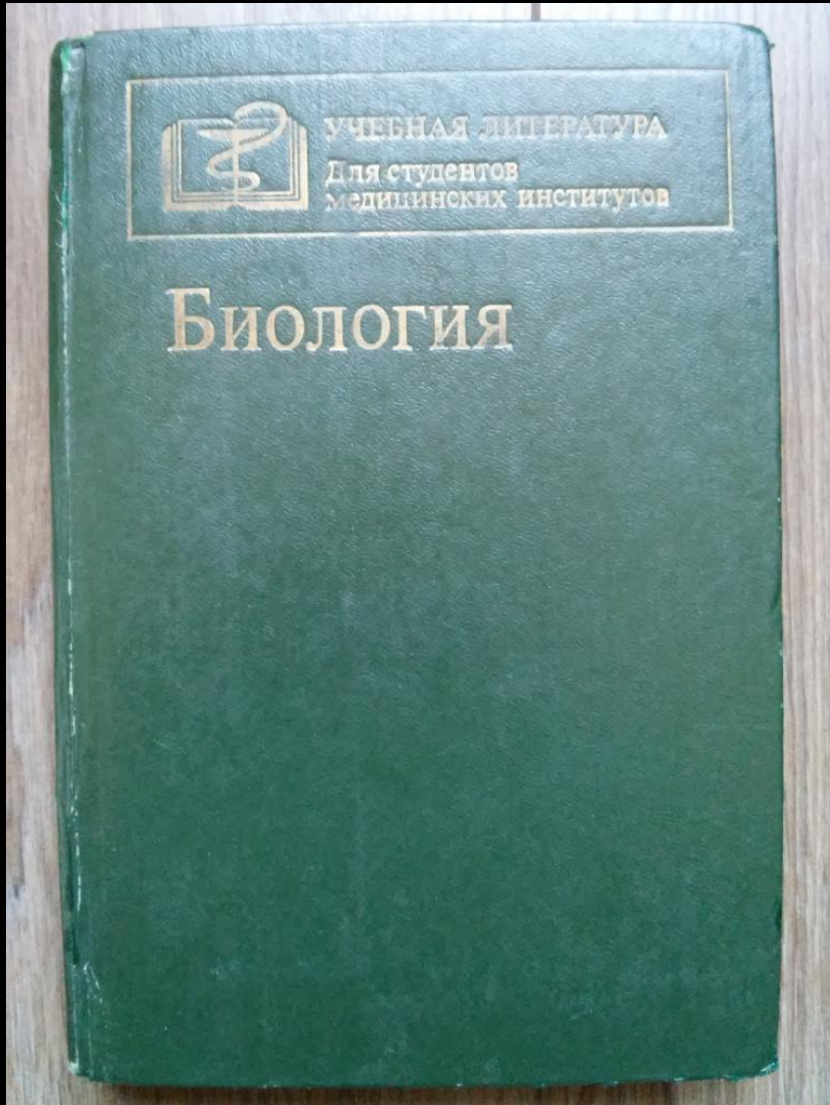

- Teeth and gums diseases are a health problem made worse by the kinds of food we eat.

- Until the middle of the 19th century, most dental operations were performed by travelling tooth drawers and barbers.

- For the first two years, most dental student undergo general medical training.

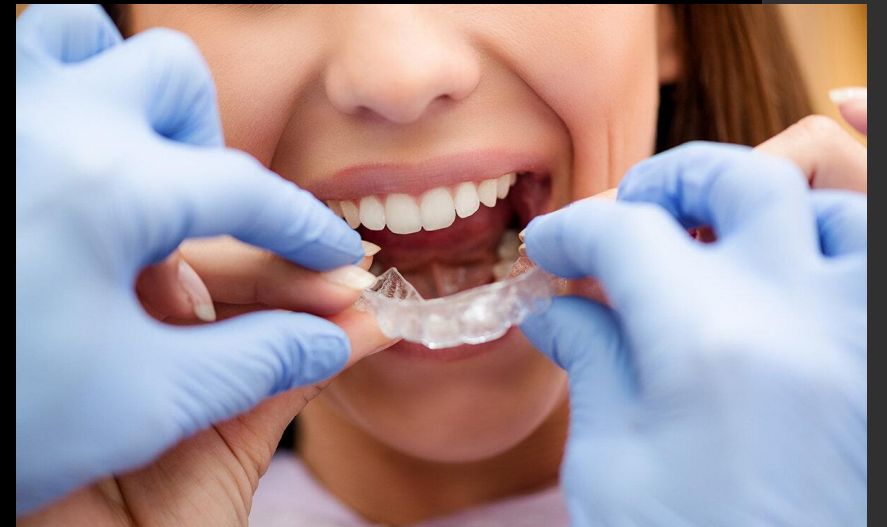

- The dental faculty was founded in 1953. The first dental students were admitted to the Perm Dental Institute established in 1935. Later the Institute was reorganized into an independent faculty.

The head of the faculty is the dean. Today, the faculty of dentistry has 9 departments:

- Department of pediatric dentistry and orthodontics
- Foreign languages department
- Department of the Latin language
- Department of medical rehabilitation, sports medicine, physical culture and health
- Department of orthopedic dentistry
- Department of pathological physiology
- Department of Russian as a foreign language
- Department of therapeutic dentistry and propaedeutics of dental diseases
- Department of surgical dentistry and maxillofacial surgery

Dean's office of the faculty of dentistry

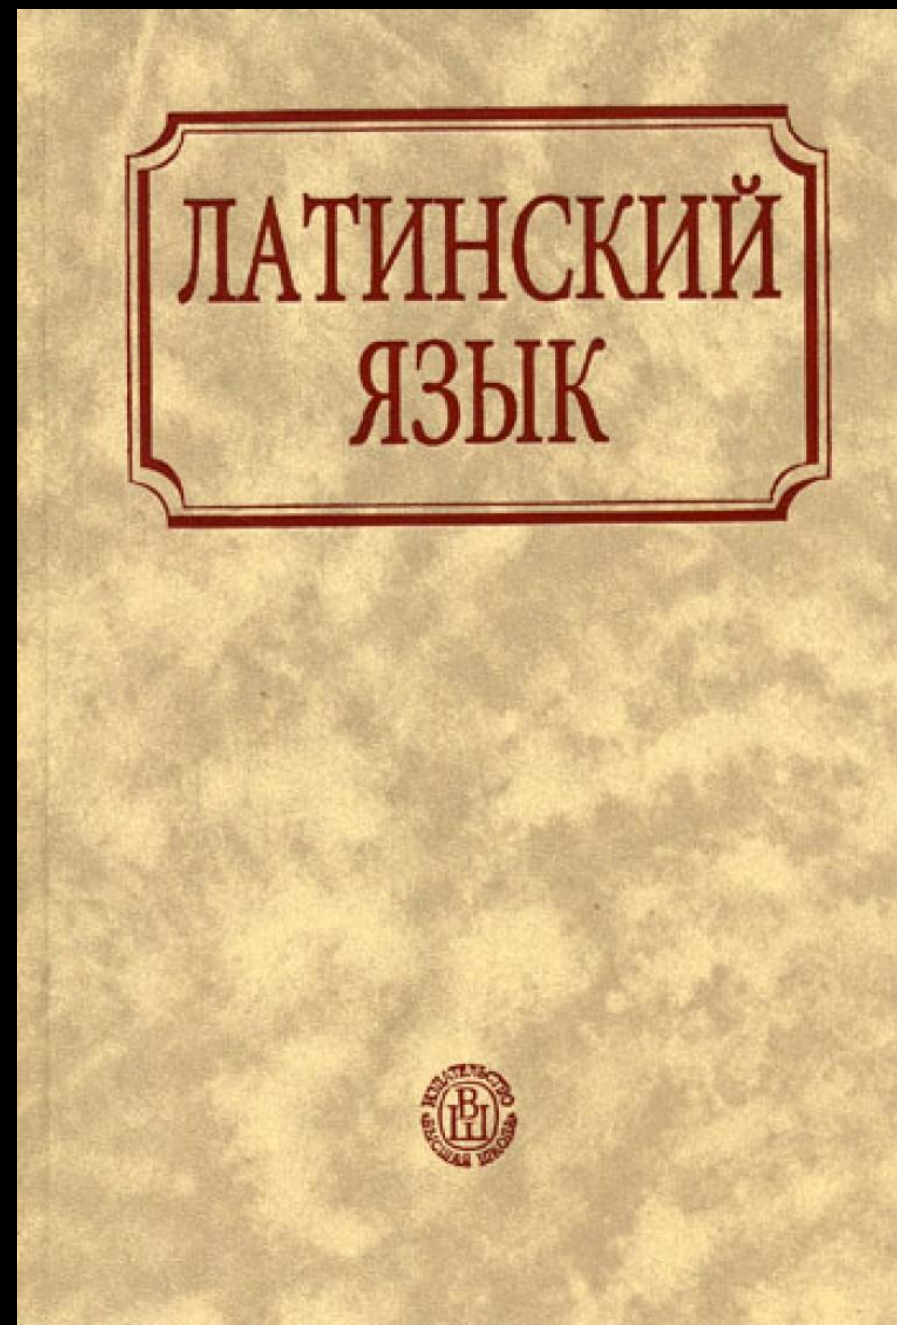

- Chernyshova Lyubov Yevgenyevna
- Fokina Natalia Borisovna
- Kulesh Anna Mikhailovna
- Novikova Irina Gennadevna

- Roslyakov Vyacheslav Aleksandrovich
- Kocherry Svetlana Andreevna
- Solomatina Natalia Vladimirovna

- Non-core departments of the faculty.

- The course of studies lasts 5 years.

- The highly qualified scientific and pedagogical staff of the departments of the faculty of dentistry, 90% of which are doctors and candidates of medical Sciences, trains professional dentists who possess new technologies.

- A significant contribution to the formation of the faculty was made by:
