This is a bird. It can talk.

It is big and brown. It sleeps in winter.

It is a very big and strong animal with big ears and a very long nose.

Let's read and translate the text
Welcome to our zoo!

owls

Five little owls in an old tree,
Fluffy and puffy as owls could be.

As I walked , I could hear one say,
"There'll be mouse for dinner today!"
Then all of them hooted "Tu -whit, Tu-whoo!"
Yes, mouse for dinner, Hoo hoo, Hoo hoo!"

Penguins

Ten little penguins,
Standing on the ice.
All of them are smiling,
They seem to be so nice.
They play out in the snow,
All the winter long,
They eat a lot of fish,
Which makes them big and
strong.

monkeys

Monkeys are cute
And look like us.
They jump very high
And play on the grass.

tigers

Tigers are orange
With black stripes.
They can be dangerous,
They can be nice.

TRUE OR FALSE

- *Owls live in the trees.*
- *They do not eat mice.*
- *Penguins like eating fish.*
- *Monkeys can't jump very high.*
- *Tigers can be dangerous.*

A snake is a crawling animal with a long body and no legs. Living snakes are found on every continent except Antarctica and on most islands. Some snakes are dangerous because they have a poisonous bite. Poison can cause painful injury or even death to humans.

NEXT

OTTER

The otter is a furry web-footed swimming animal. River otters eat a variety of fish and shellfish, as well as small land mammals and birds. Sea otters eat shellfish, clams and sea urchins.

Sea otter's life is occupied with the cleaning and taking care of its fur. If the fur is damaged otter may die from cold and exposure.

NEXT

The perfect pocket pet

The mouse is a small rodent that is found in all corners of the globe, even in Antarctica.

Many people today like to keep the mouse as pets because of the small size and quiet temperament of the mouse. The mouse is also used a lot in scientific research though the mouse is not an easy animal to examine.
